State Committee:

Timothy Peterson
Nicholas Bowser
Louise Ehmke
Sharon Karr
Mark Treaster

Acting State Executive Director: Jack R. Salava

March 15—Noninsured Crop Disaster Assistance Program (NAP) application closing deadline for millet, sorghum forage, pecans, walnuts, safflower, sesame and most annual fruits and vegetables

March 31—Deadline to request Marketing Assistance Loans and Loan Deficiency payments for 2016 harvested wheat, barley, canola, crambe, flaxseed, honey, oats, rapeseed and sesame

May 31—Deadline to request Marketing Assistance Loans and Loan Deficiency payments for 2016 harvested corn, grain sorghum, and soybeans

July 15—Reporting deadline for all spring-planted crops

August 1—Final date to enroll in the 2017 ARCPLC program

To find your local FSA county office, click <http://offices.usda.gov>

USDA Offers Help to Fire-Affected Farmers and Ranchers

Kansas producers who suffered excessive livestock death losses and grazing or feed losses due to recent wildfires may be eligible for disaster assistance programs through the USDA Farm Service Agency (FSA). The most important thing for producers to do at this time is to record all pertinent information regarding these livestock and feed losses, including photographs.

The [Farm Service Agency](#) (FSA) can assist farmers and ranchers who lost livestock, grazing land, fences or eligible trees, bushes and vines as a result of a natural disaster. FSA administers a suite of safety-net programs to help producers recover from eligible losses, including the [Livestock Indemnity Program](#) and the [Emergency Assistance for Livestock, Honeybees, and Farm-Raised Fish Program](#).

The Livestock Indemnity Program (LIP) offers payments to eligible producers for livestock death losses in excess of normal mortality due to adverse weather and the Emergency Assistance for Livestock, Honeybees, and Farm-Raised Fish Program (ELAP) provides emergency relief for losses due to feed or water shortages, disease, adverse weather, or other conditions, which are not adequately addressed by other disaster programs.

In addition, producers located in counties that receive a primary or contiguous disaster designation are eligible for low-interest [emergency loans](#) to help them recover from production and physical losses. Compensation is also available to producers who purchased coverage through the [Noninsured Crop Disaster Assistance Program](#), which protects non-insurable crops (including native grass for grazing) against natural disasters that result in lower yields, crop losses or prevented planting.

For more information on these and other programs, visit www.fsa.usda.gov/disaster or contact your local FSA office.

Livestock Indemnity Program (LIP) for Wildfire Livestock Losses

The Livestock Indemnity Program (LIP) compensates livestock owners and contract growers for livestock death losses in excess of normal mortality due to adverse weather, including losses due to wildfires, hurricanes, floods, blizzards, extreme heat or extreme cold. For 2017, eligible losses must occur on or after Jan. 1, 2017, and no later than 60 calendar days from the ending date of the applicable adverse weather event. A notice of loss must be filed with FSA within 30 days of when the loss of livestock is apparent. Participants must provide supporting documentation to their local FSA office no later than 90 calendar days after the end of the calendar year in which the eligible loss condition occurred. Some types of documentation that may be required are:

- Documentation of the number, kind, type, and weight range of livestock that have died, supplemented if possible by photographs or video records of ownership and losses;
- Rendering truck receipts by kind, type and weight - important to document prior to disposal;
- Beginning inventory supported by birth recordings or purchase receipts;
- Documentation from Animal Plant Health Inspection Service, Department of Natural Resources, or other sources to substantiate eligible death losses due to an eligible loss condition;
- Copy of growers contracts
- Proof of normal mortality documentation

USDA has established normal mortality rates for each type and weight range of eligible livestock, i.e. Adult Beef Cow = 1.1% and Non-Adult Beef Cattle (less than 400 pounds) = 2.7%. These established percentages reflect losses that are considered expected or typical under "normal" conditions.

Emergency Livestock Assistance Program (ELAP) for Wildfire Feed and Grazing Losses

Producers who suffered livestock feed or grazing losses due to recent wildfires could be eligible for assistance through the Emergency Assistance for Livestock, Honeybees, and Farm-Raised Fish Program (ELAP). ELAP provides emergency relief for losses due to feed or water shortages, disease, adverse weather, or other conditions, which are not adequately addressed by other disaster programs.

ELAP covers physically damaged or destroyed livestock feed that was purchased or mechanically harvested forage or feedstuffs intended for use as feed for the **producer's** eligible livestock. In order to be considered eligible, harvested forage must be baled. Forage that is only cut, raked or windrowed is not eligible. To participate in ELAP, producers must submit a notice of loss to their local FSA office within 30 calendar days of when the loss is apparent and should maintain documentation and receipts.

ELAP also covers up to 150 lost grazing days in instances when a producer has been forced to remove livestock from a grazing pasture due to wildfire.

For beekeepers, ELAP covers beehive losses (the physical structure) in instances where the hive has been destroyed by a natural disaster including flooding, high winds, wildfire and tornadoes.

Producers with a qualifying loss should contact their local county FSA office to file a notice of loss within 30 calendar days of when the loss is apparent. Producers should also maintain records and

receipts documenting that livestock were removed from the grazing pasture due to wildfire, costs of transporting livestock feed to eligible livestock, receipts for equipment rental fees for hay lifts, feed purchase receipts and the number of gallons of water transported to livestock due to water shortages.

Need Hay? Have Hay to Share? Use FSA's Online Hay and Grazing Acres Locator Tool

FSA's **Hay Net** website www.fsa.usda.gov/haynet is the "go to" online resource for agricultural producers to list information concerning the need for hay and grazing acres or the availability of hay and grazing acres.

If, due to extenuating circumstances, producers are in need of hay and/or grazing acres to support livestock, please use **Hay Net** to post an advertisement seeking these resources. Likewise, landowners who have hay and/or grazing acres available for livestock producers should post a Hay Net advertisement as well.

A few things to remember when using the **Hay Net** website:

- There is a one-time registration process that should be completed by all users who want to post an ad online.
- Users who just want to browse ads DO NOT NEED to have an eAuthentication user id.
- Hay and grazing acre ads will be automatically removed after a period of 13 months.
- Please help your fellow farmer and rancher by keeping ads current and up to date and remove ads you no longer need or want advertised on **Hay Net**. Please, no corporate advertisements on this site.

Hay Net is brought to you by FSA as a public service. The sole purpose of this online resource is to provide a site for the exchange of information. FSA does not endorse, guarantee, or otherwise make representations of any kind regarding any user of this site and FSA is not responsible for defining the terms of grazing agreements or lease contracts.

For more information about **Hay Net** and other FSA services and programs, please contact your local FSA office. For local FSA Service Center contact information, please visit: offices.usda.gov.

Organic Producers and Handlers May Apply for Certification Cost Share Reimbursements

Expanded Eligibility for Transition and State Certification Cost

Starting March 20, 2017, organic producers and handlers will be able to visit over 2,100 USDA Farm Service Agency (FSA) offices to apply for federal reimbursement to assist with the cost of receiving and maintaining organic or transitional certification.

USDA reimburses organic producers up to 75 percent of the cost of organic certification, but only about half of the nation's organic operations currently participate in the program. Starting March 20, USDA will provide a uniform, streamlined process for organic producers and handlers to apply for organic cost share assistance either by mail or in person.

USDA is making changes to increase participation in the National Organic Certification Cost Share Program (NOCCSP) and the Agricultural Management Assistance Organic Certification Cost Share Program, and at the same time provide more opportunities for organic producers to access other USDA programs, such as disaster protection and loans for farms, facilities and marketing. Producers can also access information on nonfederal agricultural resources, and get referrals to local experts, including organic agriculture, through USDA's Bridges to Opportunity service at the local FSA office.

Historically, many state departments of agriculture have obtained grants to disburse reimbursements to those producers and handlers qualifying for cost share assistance. FSA will continue to partner with states to administer the programs. For states that want to continue to directly administer the programs, applications will be due Feb. 17, 2017.

Eligible producers include any certified producers or handlers who have paid organic or transitional certification fees to a [USDA-accredited certifying](#) agent. Application fees, inspection costs, fees related to equivalency agreement/ arrangement requirements, travel/per diem for inspectors, user fees, sales assessments and postage are all eligible for a cost share reimbursement from USDA.

Once certified, producers and handlers are eligible to receive reimbursement for up to 75 percent of certification costs each year up to a maximum of \$750 per certification scope—crops, livestock, wild crops and handling. This announcement also adds transitional certification and state organic program fees as additional scopes.

To learn more about organic certification cost share, please visit www.fsa.usda.gov/organic.

Maintaining Good Credit History Required for FLP Customers

Farm Service Agency (FSA) Farm Loan programs require that applicants have a satisfactory credit history. A credit report is requested for all FSA direct farm loan applicants. These reports are reviewed to verify outstanding debts, if bills are paid timely and to determine the impact on cash flow.

Information found on a customer's credit report is strictly confidential and is used only as an aid in conducting FSA business.

Our farm loan staff will discuss options with you if you have an unfavorable credit report and will provide a copy of your report. If you dispute the accuracy of the information on the credit report, it is up to you to contact the issuing credit report company to resolve any errors or inaccuracies.

There are multiple ways to remedy an unfavorable credit score.

- Make sure to pay bills on time. Setting up automatic payments or automated reminders can be an effective way to remember payment due dates.
 - Pay down existing debt.
 - Keep your credit card balances low.
 - Avoid suddenly opening or closing existing credit accounts. FSA's farm loan staff will guide you through the process, which may require you to reapply for a loan after improving or correcting your credit report. For more information on FSA farm loan programs, visit www.fsa.usda.gov.

2017 Enrollment Period Ongoing for ARC/PLC Programs

Protecting Acreage from Erosion and Weed Infestation Requirement of Program Eligibility

Producers on farms with base acres under the safety net programs established by the 2014 Farm Bill, known as the Agriculture Risk Coverage (ARC) or Price Loss Coverage (PLC) programs, can visit their local FSA office to sign contracts and enroll for the 2017 crop year. The enrollment period will continue until Aug. 1, 2017.

Since shares and ownership of a farm can change year-to-year, producers on the farm must enroll by signing a contract each program year.

If a farm is not enrolled during the 2017 enrollment period, the producers on that farm will not be eligible for financial assistance from the ARC or PLC programs for the 2017 crop should crop prices or farm revenues fall below the historical price or revenue benchmarks established by the program. Producers who made their elections in 2015 must still enroll during the 2017 enrollment period.

The ARC and PLC programs were authorized by the 2014 Farm Bill and offer a safety net to agricultural producers when there is a substantial drop in prices or revenues for covered commodities. Covered commodities include barley, canola, large and small chickpeas, corn, crambe, flaxseed, grain sorghum, lentils, mustard seed, oats, peanuts, dry peas, rapeseed, long grain rice, medium grain rice (which includes short grain and sweet rice), safflower seed, sesame, soybeans, sunflower seed and wheat. Upland cotton is no longer a covered commodity. For more details regarding these programs, go to www.fsa.usda.gov/arc-plc.

Producers enrolled in the Agriculture Risk Coverage (ARC) or Price Loss Coverage (PLC) programs must protect all cropland and noncropland acres on the farm from wind and water erosion and noxious weeds. Producers who sign ARC county or individual contracts and PLC contracts agree to effectively control noxious weeds on the farm according to sound agricultural practices. If a producer fails to take necessary actions to correct a maintenance problem on a farm that is enrolled in ARC or PLC, the County Committee may elect to terminate the contract for the program year.

Weather the Storm: FEMA Mobile App Provides Weather Alerts and Safety Tips

The Federal Emergency Management Agency (FEMA) recently launched a free mobile app that will instruct the public on what to do before, during and after emergencies. The app is available for download for Apple, Android and Blackberry mobile devices.

Download the app to:

- Receive alerts from the National Weather Service for up to five locations
- Get safety reminders, read tips to survive natural disasters and customize your emergency checklist
- Locate open shelters and where to talk to FEMA in person (or on the phone)
- Upload and share your disaster photos to help first responders.

For more information about the FEMA app, visit fema.gov/mobile-app. To download the FEMA app from the Apple Store visit <https://itunes.apple.com/us/app/fema/id474807486?mt=8>. To download

the FEMA app on Google Play for Android visit:

<https://play.google.com/store/apps/details?id=gov.fema.mobile.android&hl=en>

New Program Connects Farmers to More Resources That Benefit Their Operation

The Farm Service Agency (FSA) has launched a new service that combines resources offered by national, state and local agricultural organizations to help farmers and ranchers start, improve or expand their operation.

Bridges to Opportunity is a partnership of USDA and non-USDA agricultural agencies, coming together to help provide the information farmers and ranchers need. The Bridges service is supported through a customized software application that houses information from partner organizations, making the information easily accessible to customers seeking agricultural resources while in FSA county offices.

Partnering with FSA's Bridges to Opportunity provides a central location for USDA and local, state and national agricultural organizations to offer support to farmers and ranchers and help with disaster assistance, grants, technical help, financial advice and educational courses.

Agricultural organizations that partner with FSA are providing access to programs, upcoming events, workshops and other resources with farmers and ranchers that come through the doors of FSA county offices.

To learn more about Bridges to Opportunity and how it can help you, contact your State or local FSA County Office. You may also visit the [FSA website](#) for more information.

USDA is an equal opportunity provider, employer and lender. To file a complaint of discrimination, write: USDA, Office of the Assistant Secretary for Civil Rights, Office of Adjudication, 1400 Independence Ave., SW, Washington, DC 20250-9410 or call (866) 632-9992 (Toll-free Customer Service), (800) 877-8339 (Local or Federal relay), (866) 377-8642 (Relay voice users).
