## 2022 Management Plan

For Montgomery	County		
Timothy L. Hersh	, County Weed Director		

Specify the goals and priorities of the program for the coming year.

Goal #1: Increase public awareness regarding the importance of Noxious Weed Control and Land Preservation.

Goal #2: Apply mechanical and cultural practices to the Noxious Weed Control process.

Priorty #1: Coordinate with Road and Bridge Maintenance regarding timing of Right of Way treatments and coordinate additional treatments i.e.; Bridge R/W, clearing intersections (line of sight). Priorty #2: (See Goal #1)

Priorty #3: Find functional substitutes for pesticides made unavailable by events of 2020 & 2021.

Specify the goals and priorities of the program for the next five years.

Goal #1: Locate water supplies for pesticide mixing in outlying districts.

Goal #2: Establish an ongoing Maintenance Plan for Goal #2 stated above.

Goal #3: Pesticide mixing and filling stations / apparatus for safer handling and loading of chemicals.

Priority #1: Establish a bareground regimen for county yards.

Priority #2: Monitor the need for upgrading and replacing aging or faltering equipment.

Describe the areas which noxious weed species are known to occur within the county and specific locations of new infestations and areas particularly susceptible to new infestations.				
Field bindweed	Occurs in all Districts. Does not seem to be spreading			
Musk thistle	Occurs primarliy in Districts 4,5,6 Seems to be reducing in coverage			
Sericea lespedeza	Occurs primarliy in Districts 4,5,6,7,8. Limited to poor mgn't and woody areas			
Johnsongrass	Occurs in all Districts. Constantly expanding.			
Bur ragweed	None			
Canada thistle	None			
Hoary cress	None			
Leafy spurge	None			
Quackgrass	None			
Kudzu	None			
Russian knapweed	None			

List any non-noxious invasive weed species you plan to control and the types of integrated weed control					
methods you plan on using on them.					
Teasel: Cultural and Mechanical practices including burning, mowing and grazing (as per landowner)					
Poison Hemlock: Chemical Treatment (2-4-D & Dicama)					
List your planned integrated weed management goals and procedures, including but not limited to biological

Estimate the projected personnel, operations, and equipment costs of the proposed program.		
Personnel costs	\$73,000 per year	
Operations costs	\$48,000 per year (includes equipment repairs, fuel costs, etc.)	
Equipment costs	\$75,000 every 10-12 years (2 spray trucks), \$90,000 every 5-6 years (tractor/mower	

Mechanical Controls

Grubbing, Mowing and Clearing undergrowth

List the methods you plan to use to encourage compliance and the enforcement actions you will take if				
necessary.				
Raising Public Awareness of the negative affects of Noxious Weeds and the legalities regarding the control of Noxious Weeds via Local Publications, Mailers and Posting Flyers.				
2) Legal Letter of Notice to landowners with excessive Noxious Weed growth.				
List your plans for working with state and/or federal agencies to control the noxious weeds on state and/or				
federal lands.				
Todorariando.				
Continue following comment Navieus Mead Levy Dalies				
Continue following current Noxious Weed Law Policy.				
Describe your education and outreach plans for the coming year. Include training and professional				
development for yourself and your staff. (Attend District meetings? Annual Conference? Recertification?)				
development for yearself and your stant. (Attend Bistriot meetings: Attinual Conference: Accordination:)				
Ongoing Education through CWDAK, Attend District Meetings, Annual Conference and Basic				
Training Class.				

List the facilities and equipment available for u			v, including a			
list of the equipment available for rent to the public and the rent you charge.						
2 - 900 gal capacity Spray Trucks with adjustable booms.						
4 - Back Pack Sprayers						
1 - 20 gal boom sprayer with hand sprayer						
1 - Noxious Weed Facility; Office, shop, warehouse
