K.A.R. 9-18-23. Adoption of feline immunodeficiency virus-positive cats. The attending veterinarian for a licensed animal shelter or rescue network may authorize the adoption or transfer of any nonsymptomatic feline immunodeficiency virus-positive (FIV-positive) cat. The animal shelter licensee or rescue network manager shall obtain a written statement from the veterinarian authorizing the adoption of the cat and stating the symptoms, risks, and recommendations of how the cat will be housed to minimize the spread of the virus. A copy of the written opinion shall be maintained with the disposition records of the FIV-positive cat and shall be made available to the commissioner or the commissioner's representatives upon request. (Authorized by and implementing K.S.A. 47-1712; effective P-_____.)
