**MADE OF THE WATER UNDER AN**  
**EXISTING WATER RIGHT**

State of Kansas

*Filing Fee Must Accompany the Application*  
*(Please refer to Fee Schedule on signature page of application form.)*

Paragraph Nos. 1, 2, 3, 4 & 8 must be completed. Complete all other applicable portions. A topographic map or detailed plat showing the authorized and proposed points(s) of diversion and /or place of use must accompany this application.

**WATER RESOURCES  
RECEIVED**

**NOV 28 2016**

**KS DEPT OF AGRICULTURE**

1. Application is hereby made for approval of the Chief Engineer to change the

- Place of Use
- (Check one or more)  Point of Diversion
- Use Made of Water

File No. 22,341 Circle 30.

2. Name of applicant: City of Hays, Kansas and City of Russell, Kansas (See paragraph 2 of the cover letter.)

Address: c/o Foulston Siefkin LLP, 1551 N. Waterfront Parkway, Suite 100

City, State and Zip: Wichita, Kansas 67206

Phone Number: ( 316 ) 291-9725 E-mail address: dtraster@foulston.com

What is your relationship to the water right;  owner  tenant  agent  other? If other, please explain. Hays and Russell are co-owners of the authorized place of use on the R9 Ranch in Edwards County.

Name of water use correspondent: City of Hays, Kansas

Address: P. O. Box 490, 1507 Main Street

City, State and Zip: Hays, Kansas 67601

Phone Number: ( 785 ) 628-7320 E-mail address: tdougherty@haysusa.com

3. The change(s) proposed herein are desired for the following reasons (please be specific):  
See Paragraph 3 of the cover letter filed concurrently with this application. The cover letter is incorporated herein by reference.

The change(s) (~~was~~) (will be) completed by See Paragraph 3 of the cover letter  
(Date)

 This point will not be changed  This point will be changed as follows:  
**Proposed point of diversion: (Complete only if change is requested)**  
 One in the \_\_\_\_\_ Quarter of the \_\_\_\_\_ Quarter of the \_\_\_\_\_ Quarter of Section \_\_\_\_\_, Township \_\_\_\_\_ South, Range \_\_\_\_\_ (E/W), in \_\_\_\_\_ County, Kansas, \_\_\_\_\_ feet North \_\_\_\_\_ feet West of Southeast corner of section. Proposed Rate \_\_\_\_\_ Proposed Quantity \_\_\_\_\_  
 This point is:  Additional Well  Geo Center List other water rights that will use this point \_\_\_\_\_

11. Describe the current condition of and future plans for any point(s) of diversion which will no longer be used. \_\_\_\_\_  
 See paragraph 11 of the cover letter.

**IF MORE SPACE IS NEEDED, ATTACH ADDITIONAL SHEETS AS NECESSARY**

WATER RESOURCES

**5. It is proposed that the place of use be changed to:**

The City of Hays, Kansas and its immediate vicinity as well as related areas in the Northeast Quarter (NE/4) of Section 19 and the Northwest Quarter (NW/4) of Section 36, T13S-R18W, Ellis County, Kansas;

The City of Russell, Kansas and its immediate vicinity;

The City of Victoria, Kansas and its immediate vicinity;

The City of La Crosse, Kansas and its immediate vicinity; and

The City of Ellis, Kansas and its immediate vicinity.

Upon the execution of a contract to purchase water from the Project, the authorized place of use should include industrial facilities or the corporate limits of the municipality, rural water district, or other entity entering into such contract for purchase and in the case of a municipality, its immediate vicinity.

**7., 8., 9., and 10. Proposed Rate, Quantity, and Well Location**

The Cities requested a total of 190.38 acre-feet at 920 gpm from the well associated with this water right, all of which would be diverted from new point of diversion "M," as shown on Exhibit M. When combined with existing wells from other water rights, new point of diversion "M" would have a cumulative total of 475.5 acre-feet at 3,500 gpm.

After extensive negotiation, the Cities and the Chief Engineer have reached a tentative agreement on numerous terms that are set out in an Initial Order, including an agreement to reduce the quantity requested to 188.0 acre-feet per year. The Cities understand that the Initial Order is subject to review by the GMD and others and cannot be finalized until after that review. The Cities submit these amendments to their original Change Application but the amendments are contingent upon the entry of an Initial Order and a Final Order with terms that are acceptable to the Cities.

Subject to the negotiated terms set out in the Initial Order, the proposed municipal well "M" will be limited to a maximum rate of 950 gallons per minute.

Attached as Exhibits S and T are additional maps that show the location of the currently authorized points of diversion, a one-half mile buffer around each irrigation well, the proposed location of municipal well "M," a 1,000-foot radius around that location, and the proposed areal limits within which the new municipal wells can be located.

**13. If changing the place of use and the use made of water, describe how the consumptive use will not be increased:**

*Quantity authorized and perfected*

The Permit was issued on March 19, 1976, granting the applicant the right to divert up to 198 acre-feet annually at a rate not to exceed 1,000 gallons per minute for irrigation use<sup>1</sup> on 130

<sup>1</sup> Permit, HAYS003513, Ex. A.

acres in Sections 10 and 15-T26S-R20W.<sup>2</sup> The Certificate further limited the rate to 920 gallons per minute.

In the cover letter transmitting the Permit, DWR made findings of fact stating that “the proposed use is for a beneficial purpose and is *within reasonable limitations*. If priorities are observed and respected, the proposed use will neither impair any use under existing water rights nor prejudicially and unreasonably affect the public interest.”<sup>3</sup>

The Field Inspection Reports indicate that 190.38 of the 198.00 acre-feet authorized by the Permit were lawfully perfected.

- 295 acre-feet were applied to 125 approved acres in Sections 10 and 15-T26S-R20W.<sup>4</sup>
- The Permit authorized the perfection of 198 acre-feet per acre on 130 acres or 1.52 acre-feet per acre, but only 125 authorized acres were irrigated during the perfection period resulting in the perfection of 190.38 acre-feet.<sup>5</sup>

While the Certificate limits the total quantity to 188 acre-feet based on DWR’s after-the-fact determination that 1.5 acre-feet per acre was a reasonable quantity for irrigation use, DWR did not have jurisdiction to make this reduction.<sup>6</sup>

Since the perfection period has expired, the “authorized quantity” for this water right is the 190.38 acre-feet actually perfected even though it exceeds the certified quantity.

#### *NIR for Alfalfa*

The FIR states that alfalfa was grown on this circle during the year of record.<sup>7</sup> According to the Kansas Irrigation Guide, the NIR for the 50% chance rainfall in Edwards County is 20.9 (1.741666 feet) inches for alfalfa.

It is reasonable to use the NIR for alfalfa, which yields a total quantity of 217.71 acre-feet consumed. Because this quantity is greater than the authorized quantity of 190.38 acre-feet the request is limited to that amount.<sup>8</sup>

Nevertheless, and pursuant to the negotiated terms set out in the Initial Order discussed above, the Cities request that the Chief Engineer approve a total of 188.0 acre-feet per year for municipal use.

Subject to the negotiated terms set out in the Initial Order, the proposed municipal well “M” will be limited to a maximum rate of 950 gallons per minute.

<sup>2</sup> Application, HAYS003506, Ex. B.

<sup>3</sup> March 19, 1976, letter (emphasis added), HAYS003512, Ex. C.

<sup>4</sup> FIR, HAYS003497, Ex. D.

<sup>5</sup> FIRs, HAYS003497, Ex. D.

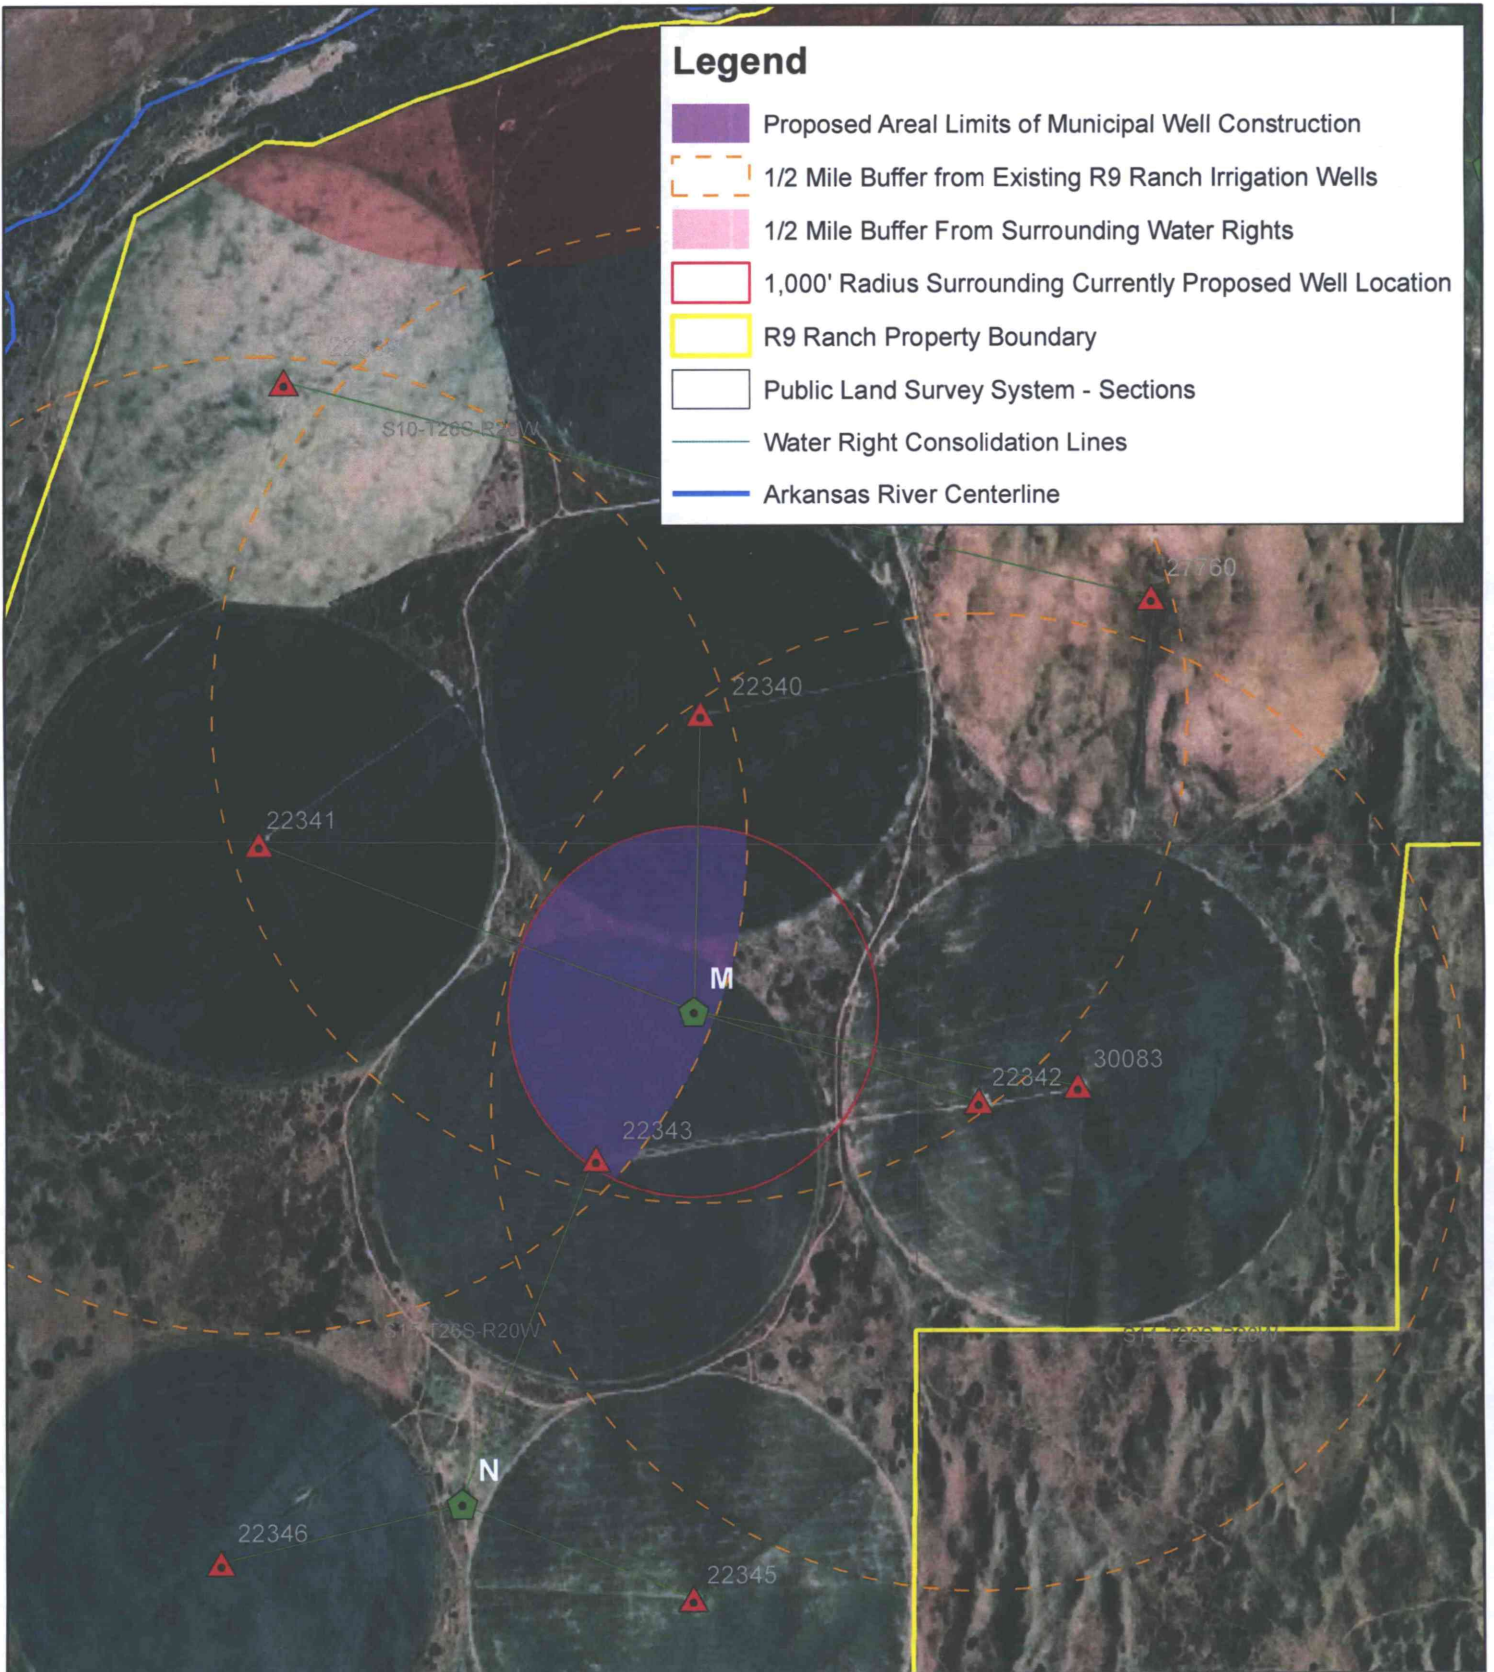

<sup>6</sup> Certificate, HAYS003521, Ex. E; Larry Sheets Memo dated March 25, 1987, HAYS003516, Ex. F; and *Clawson v. Kansas Dept. of Agriculture, Div. of Water Resources*, 49 Kan. App. 2d 789, 315 P.3d 896 (2013).
