

Thanks to the 2020 Kansas Ag Heroes!

Andrea DeJesus, A & H Farms

Andrea did a great job advocating for the farmers' market to be held during the COVID-19 pandemic in Manhattan. She advocated to the City of Manhattan administration that the market could be held safely and that is was an essential need to the community. She set up sanitizer stations and livestreamed the market on Facebook so that patrons had an idea as to what safety protocols were in place before arriving at the market.
