

## Thanks to the 2020 Kansas Ag Heroes!

## Musil Farms, Inc.

Jim Musil and Don Musil serve as the president and vice president of Musil Farms, Inc in Blue Rapids, Kansas. Jim and Don along with their wives, children, and hired hand, Dan Gallagher, are deserving to be included as a Kansas Ag Hero not only for their aspiring decorum and overall morale, but also the hardships they have overcome in the past year. When flooding decimated the northeast area of the state last spring, the Musil's lower farm ground was decimated. They were unable to harvest any of the crops impacted by the Missouri River flooding but could salvage some upland crops. With an estimated loss of over \$200,000, their faith brought them through it. Entering the 2020 planting season, the ground was mucky, and the outlook was not good. Admirably they remained strong and trusted God. It looks like their 2020 harvest will yield a tremendous crop of corn and soybeans. They are active and thought highly of in their community and are deserving to be nominated.

Nominated by Lee Musil
