Overview

The Kansas Department of Agriculture’s Economist creates annual economic contribution reports to estimate the impact of agriculture on the Kansas economy. The purpose of these reports is to provide information for stakeholders, policymakers, and the general public. In this report, the model analyzes the effects of agriculture on the Allen County, Kansas economy. For the estimated current year (2022), 28 agriculture and agriculture-related sectors directly contribute \$476 million in output and 1,071 jobs to the Allen County economy. Including indirect and induced effects, agriculture and agriculture-related sectors have a total impact of \$527 million in output, 1,372 jobs and 18% of the total Gross Regional Product (GRP).

Estimated Economic Contribution of Agriculture

Methodology and Glossary on final page

Results

In this model, the 28 agriculture and agriculture-related sectors have a total direct output of \$476 million and account for 1,071 jobs in Allen County, as shown in the following table:

Table 1: Agriculture and Agriculture-Related Sectors’ Contribution to Allen County Economy

Contribution Type	Employment	% Employment	Total Value Added	% of Gross Regional Product	Output
Direct Effect	1,071	14%	\$88,543,000	14%	\$476,051,000
Indirect Effect	173	2%	\$14,515,000	2%	\$33,561,000
Induced Effect	128	2%	\$9,373,000	1%	\$17,607,000
Total Effect	1,372	18%	\$112,432,000	18%	\$527,220,000

Note: Individual effects may not equal the total effect due to rounding.

The agriculture and agriculture-related sectors provide a total estimated impact of \$527 million in output. These sectors also support a total of 1,372 jobs, or 18% of the county’s entire workforce. Another metric used to calculate the importance of sectors in the economy is their value added as a percentage of GRP. Total value added by the 28 agriculture and agriculture-related sectors is 112 million, or 18% of the GRP.

Top Ten Sectors by Output

The table below shows Allen County’s top ten sectors by output, including direct, indirect and induced effects. The *animal, except poultry, slaughtering* sector is the top contributor in output to the Allen County economy, with \$136 million in total output.

Table 2: Top Ten Sectors by Output, Allen County

Sector	Total Output
Animal, except poultry, slaughtering	\$135,749,000
Soybean and other oilseed processing	\$98,691,000
Confectionery manufacturing from purchased chocolate	\$68,424,000
Other animal food manufacturing	\$45,898,000
Beef cattle ranching and farming, including feedlots and dual-purpose ranching and farming	\$43,222,000
Farm machinery and equipment manufacturing	\$33,250,000
Oilseed farming	\$25,977,000
Grain farming	\$13,886,000
Truck transportation	\$5,363,000
Other real estate	\$5,020,000

Top Ten Sectors by Employment

Of the agriculture and agriculture-related sectors, *beef cattle ranching and farming, including feedlots and dual-purpose ranching and farming* supports the most jobs in the county with 391 jobs. Table 3 illustrates the top ten sectors by total employment, including direct, indirect and induced effects in Allen County.

Table 3: Top Ten Sectors by Employment, Allen County

Sector	Total Employment
Beef cattle ranching and farming, including feedlots and dual-purpose ranching and farming	391.17
Animal, except poultry, slaughtering	190.22
Confectionery manufacturing from purchased chocolate	173.60
Farm machinery and equipment manufacturing	64.33
All other crop farming	54.13
Grain farming	50.89
Other animal food manufacturing	39.52
Other real estate	33.05
Truck transportation	30.92
Oilseed farming	29.67

All Direct Agriculture Sectors

Table 4 is a summary of agriculture sectors represented with output and employment levels. These values estimate the value of output and the jobs these agriculture sectors support in the Allen County economy. Generally, this analysis includes three categories: production, manufacturing or processing, and services. Note, the model does not include ethanol production or wholesale and retail sales of final products.

Table 4: All Direct Agriculture Sectors, Allen County

Sector	Total Output	Total Employment
Animal, except poultry, slaughtering	\$135,749,000	190.22
Soybean and other oilseed processing	\$98,691,000	24.41
Confectionery manufacturing from purchased chocolate	\$68,424,000	173.60
Other animal food manufacturing	\$45,898,000	39.52
Beef cattle ranching and farming, including feedlots and dual-purpose ranching and farming	\$43,222,000	391.17
Farm machinery and equipment manufacturing	\$33,250,000	64.33
Oilseed farming	\$25,977,000	29.67
Grain farming	\$13,886,000	50.89
Dairy cattle and milk production	\$2,537,000	3.30
Support activities for agriculture and forestry	\$1,791,000	13.35
All other crop farming	\$1,687,000	54.13
Bread and bakery product, except frozen, manufacturing	\$848,000	5.77
Animal production, except cattle and poultry and eggs	\$845,000	6.20
Frozen cakes and other pastries manufacturing	\$525,000	5.77
Veterinary services	\$461,000	7.69
Other snack food manufacturing	\$454,000	0.58
Vegetable and melon farming	\$402,000	2.24
Bottled and canned soft drinks & water	\$339,000	0.58
Roasted nuts and peanut butter manufacturing	\$282,000	0.57
Landscape and horticultural services	\$269,000	3.83
Poultry and egg production	\$247,000	0.29
Commercial logging	\$90,000	1.40
Fiber, yarn, and thread mills	\$50,000	0.16
Forestry, forest products, and timber tract production	\$49,000	0.55
Greenhouse, nursery, and floriculture production	\$45,000	0.26
Tree nut farming	\$24,000	0.18
Commercial hunting and trapping	\$8,000	0.58
Fruit farming	\$2,000	0.01

Methodology

Using the economic software IMPLAN, the equilibrium displacement model calculates the estimated output and employment of all 546 different economic sectors if the current economy experiences no shocks within the agriculture and agriculture-related industries. IMPLAN sectors are based on North American Industry Classification System (NAICS) codes. The results of this model are broken down into direct, indirect and induced effects, and the IMPLAN framework avoids double counting. All agriculture and agriculture-related sectors represented in this model use the most recent IMPLAN data available (2020), adjusted for 2022 dollars.

Notes and Glossary

These results are based on estimated production and employment numbers, along with estimated potential sector-, industry- and economy-wide effects. Therefore, these results may differ from actual events.

Due to confidentiality policies that exist within several agencies from which IMPLAN collects their data, some sectors in some regions may not have all data available.

The model provides results in relation to the agriculture and agriculture-related sectors. These results are not equal to the total effects of all 546 sectors but rather the total effects relative to agriculture.

The following terms are used throughout this report:

- *Direct effect*: the contribution from agricultural and food products
- *Indirect effect*: the contribution from farms and agricultural businesses purchasing inputs from supporting industries within the county
- *Induced effect*: the contribution from employees of farms, agricultural businesses, and supporting industries spending their wages on goods and services within the county
- *Value added* = labor income + indirect business taxes + other property type income
- *Gross Regional Product* = final demand of households + government expenditures + capital + exports – imports – institutional sales
- *Output* = intermediate inputs + value added
- *Employment*: full-time/part-time annual average, i.e., 1 job lasting 12 months = 2 jobs lasting 6 months each = 3 jobs lasting 4 months each. A job is neither full-time nor part-time.
