Subject: Equitable use of equus beds water

EXTERNAL: This email originated from outside of the organization. Do not click any links or open any attachments unless you trust the sender and know the content is safe.

I am very concerned over Wichita's request for a greater pull depth of water during a serious drought. During such a drought those of us who have the equus beds as our water source would also be negatively affected. Hardship for us would be compounded. This would therefore not be an equitable solution. The city of El Dorado has offered to sell water from El Dorado Lake to the city of Wichita. That is an equitable solution . By this means we all get the water we need.

Beth Vannatta.
