BALANCE® FLEXX Herbicide

**For Control of Broadleaf Weeds and Grasses
in Corn.**

EPA Reg. No. 264-1067

EPA SLN: KS-090004

24(c) Supplemental Label

FOR DISTRIBUTION AND USE ONLY IN THE STATE OF KANSAS

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. This label must be in the possession of the user at the time of pesticide application. Follow all applicable directions, restrictions, Worker Protection Standard requirements and precautions on the EPA registered label. Do not apply this product through any type of irrigation system.

This product bulletin serves as supplemental labeling for use of BALANCE® FLEXX Herbicide in Kansas. The following restrictions include specific requirements beyond those found under the "Restrictions For Use On Field Corn" section of the container label.

ENVIRONMENTAL PRECAUTIONS

AGRICULTURAL CHEMICALS HAVE THE POTENTIAL TO MOVE INTO SHALLOW GROUNDWATER. THE FOLLOWING RESTRICTIONS HAVE BEEN DEVELOPED TO PROTECT DRINKING WATER SUPPLIES.

Do not wash, load, or empty application equipment near any well, as this practice is a potential source of ground water contamination. In fields having soils with less than 15% field moisture holding capacity, special care must be taken not to over-irrigate, since substantial over-irrigation promotes the leaching of chemicals.

SOIL TYPE RESTRICTIONS

KANSAS

If the water table is less than 25 feet below ground surface, do not apply to the following vulnerable loamy sand or sand soils.

If the water table is unknown, do not apply BALANCE® FLEXX Herbicide to a restricted soil.

Aline	Els	Haxtun	Lincoln	Thurman
Bankard	Elsmere	Inavale	Pratt	Tivoli
Dillwyn	Goltry	Kanza	Sarpy	Valent
Dix	Goodnight	Las Animas	Schamber	Valentine
Dwyer	Gracemore	Likes	Simeon	

If a field contains several soil types, one of which is a vulnerable soil listed above, and the water table is less than 25 feet, do not apply BALANCE® FLEXX Herbicide.
