

**RESTRICTED USE PESTICIDE
(GROUND AND SURFACE WATER CONCERNS)**

FOR RETAIL SALE TO AND USE BY CERTIFIED APPLICATORS OR PERSONS UNDER THEIR DIRECT SUPERVISION AND ONLY FOR THOSE USES COVERED BY THE CERTIFIED APPLICATOR'S CERTIFICATION. THIS PRODUCT IS A RESTRICTED-USE HERBICIDE DUE TO GROUND AND SURFACE WATER CONCERNS. USERS MUST READ AND FOLLOW ALL PRECAUTIONARY STATEMENTS AND INSTRUCTIONS FOR USE IN ORDER TO MINIMIZE POTENTIAL FOR ATRAZINE TO REACH GROUND AND SURFACE WATER.

**REGISTRATION FOR SPECIAL LOCAL NEED
FOR DISTRIBUTION AND USE ONLY WITHIN THE STATE OF KANSAS**

Tenkoz Atrazine 4L Herbicide

EPA Reg. No. 55467-13

FOR WEED CONTROL IN ROW CROP STUBBLE (SOYBEANS, CORN, OR SORGHUM) FOLLOWING HARVEST ON GROUND TO BE ROTATED TO CORN OR GRAIN/FORAGE SORGHUM THE NEXT YEAR.

FAILURE TO FOLLOW THE DIRECTIONS FOR USE AND PRECAUTIONS ON THIS LABEL MAY RESULT IN POOR WEED CONTROL, CROP INJURY, OR ILLEGAL RESIDUES.

DIRECTIONS FOR USE

- It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
- Follow all applicable directions, restrictions and precautions including statements pertaining to the Worker Protection Standards, on the EPA registered label for Atrazine 4L Herbicide.
- This labeling must be in the possession of the user at the time of pesticide application.

Atrazine 4L Applied Alone- Row Crop Stubble to Be Planted to Corn or Sorghum (Grain or Forage) the Next Spring

Soybeans- Corn or Sorghum – Soybeans Rotation on Medium and Fine Textured Soils

Atrazine 4L may be applied to untilled soybean stubble following soybean harvest for control of fall germinating weeds and control of early spring germinating weeds. Broadcast 3.2 to 4.0 pts./A in a minimum of 10 gals. of spray mixture for ground application, with or without crop oil concentrate, depending on soil texture classification and the percent of soil covered with plant residue. On soils not highly erodible, apply 3.2 to 4.0 pts./A. On highly erodible soils where conservation tillage is practiced, leaving at least 30% of the soil covered with plant residues, apply 3.2 to 4.0 pts./A as a broadcast spray. If the soil coverage with plant residue is less than 30%, a maximum of 3.2 pts./A of Atrazine 4L may be applied.

In the following spring if supplemental weed control is needed: up to 0.9 lb. a.i./A of atrazine may be applied as Atrazine 4L (1 pint of Atrazine 4L contains 0.5 lb. atrazine active ingredient) or atrazine in registered prepack products if the lower rate of 3.2 pt/A above was used; up to 0.5 lb. a.i./A of atrazine may be applied as Atrazine 4L (1 pint of Atrazine 4L contains 0.5 lb. atrazine active ingredient) or atrazine in registered prepack products if the higher rate of 4.0 pt/A above was used. If weeds are present at application which are not on the product label(s), use a tank mixture of Atrazine 4L with an approved foliar applied herbicide.

Apply from soybean harvest up to December 31 but DO NOT apply to frozen ground. DO NOT use where the soil surface conditions favor wind erosion. To minimize the potential of wind erosion, do not fall till soybean stubble after Atrazine 4L application. In no-till operations, maintain desired crop residues on the surface. Plant corn or sorghum the following spring with minimal soil disturbance.

Observe all applicable use limitations and precautions, including setbacks, on the Atrazine 4L label. **The total amount of atrazine must not exceed 2.5 lbs. a.i./A per calendar year. DO NOT apply Atrazine 4L in the fall if soybeans are to be planted the next spring.**

Note: DO NOT plant any crops except corn, grain sorghum, or forage sorghum the spring following after harvest Atrazine 4L application or illegal residues may result. DO NOT graze treated areas within six months after application or illegal residues may result.

Continuous Corn- Corn, Sorghum – Sorghum, or Alternating Corn / Sorghum Rotations on Medium and Fine Textured Soils:

Atrazine 4L may be applied to corn or sorghum stubble following corn or sorghum harvest for control of fall germinating weeds and control of early spring germinating weeds. **The total amount of atrazine to the corn or sorghum crop plus the after crop harvest application must not exceed 2.5 lbs. a.i./A per calendar year.**

If no atrazine was applied to the corn or sorghum crop prior to harvest, broadcast 3.2 to 4.0 pts./A in a minimum of 10 gals. of spray mixture for ground application, with or without crop oil concentrate, after harvest depending on soil texture classification and the percent of soil covered with plant residue. On soils not highly erodible, apply 3.2 to 4.0 pts./A. On highly erodible soils where conservation tillage is practiced, leaving at least 30% of the soil covered with plant residues, apply 3.2 to 4.0 pts./A as a broadcast spray. On highly erodible soils where plant residue is less than 30%, a maximum of 3.2 pts./A of Atrazine 4L may be applied.

In the following spring if supplemental weed control is needed: up to 0.9 lb. a.i./A of atrazine may be applied as Atrazine 4L (1 pint of Atrazine 4L contains 0.5 lb. atrazine active ingredient) or atrazine in registered prepack products if the lower rate of 3.2 pt/A above was used; up to 0.5 lb. a.i./A of atrazine may be applied as Atrazine 4L (1 pint of Atrazine 4L contains 0.5 lb. atrazine active ingredient) or atrazine in registered prepack products if the higher rate of 4.0 pt/A above was used. If weeds are present at application which are not on the product label(s), remove them with a shallow field cultivation or use an approved foliar applied herbicide tank mix partner with Atrazine 4L.

If atrazine was applied in the production of the harvested corn or sorghum, the maximum after harvest rate would be 2.5 lbs. a.i./A MINUS the rate applied to the harvested crop, or the rate above, whichever is least. The total of the spring preemergence and postemergence (if used) application(s) and the after harvest application must not exceed 2.5 lbs. a.i./A of atrazine per calendar year.

Apply from corn or sorghum harvest up to December 31 but DO NOT apply to frozen ground. Ground may be tilled before or after application. **DO NOT** exceed a 2- to -3 inch incorporation depth if tilled after application. In no-till or minimum tillage operations, maintain desired crop residues on the surface. Plant corn or sorghum the following spring with minimal soil disturbance.

Observe all applicable use limitations and precautions, including setbacks, on the Atrazine 4L label.

Note: DO NOT plant any crops except corn, grain sorghum or forage sorghum the spring following after harvest Atrazine 4L application or illegal residues may result. DO NOT graze treated areas within six months after application or illegal residues may result.

LIMITATION OF WARRANTY AND LIABILITY

Read the entire directions for use, conditions of warranties and limitations of liability before using this product. If terms are not acceptable, return the unopened product container at once. By using this product, user or buyer accepts the following **CONDITIONS, DISCLAIMER OF WARRANTIES, and LIMITATIONS OF LIABILITY.**

CONDITIONS: The directions for use of this product are believed to be adequate and must be followed carefully. However, it is impossible to eliminate all risks associated with the use of this product. Crop injury, ineffectiveness or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or the manner of use or application, all of which are beyond the control of Tenkoz Inc. To the extent consistent with applicable law, all such risks shall be assumed by the user or buyer.

DISCLAIMER OF WARRANTIES: To the extent consistent with applicable law, Tenkoz Inc. makes no other warranties, express or implied, of merchantability or of fitness for a particular purpose or otherwise, that extend beyond the statements made on this label. No agent of Tenkoz Inc. is authorized to make any warranties beyond those contained herein or to modify the warranties contained herein. To the extent consistent with applicable law, Tenkoz Inc. disclaims any liability whatsoever for special, incidental or consequential damages resulting from the use or handling of this product.

LIMITATIONS OF LIABILITY: To the extent consistent with applicable law, the exclusive remedy of the user or buyer for any and all losses, injuries or damages resulting from the use or handling of this product, whether in contract, warranty, tort, negligence, strict liability or otherwise, shall not exceed the purchase price paid or at Tenkoz Inc.'s election, the replacement of product.
