Industrial Hemp: The Road Ahead

Dana Ladner
February 12, 2019
Industrial Hemp Working Group

- Current Members:
  - Representative Willie Dove, 38th House District
  - Kerri Ebert, K-State, Kansas Center for Sustainable Ag and Alternative Crops
  - Representative Steven Johnson, 108th House District
  - Jeff Ochampaugh, Agrilead, Inc.
  - Kelly Rippel, Vice President, Kansans for Hemp
  - Steve Schuler, Executive Director, Kansas Crop Improvement Association
  - Dr. Andrew Tucker, Fort Hays State University, Agronomy
  - Katie Whisman, Executive Office, Kansas Bureau of Investigation
  - Representative Troy Waymaster, 109th House District
  - Jeff Vogel, ex officio, Program Manager, Plant Protection, KDA
How We Got to the Law

- Passed by the Senate
- Passed by the House
- Signed by the Governor — Officially became a law on April 20
- Published in the Kansas Register
  - Officially took effect on May 3
  - 2018 Kansas Session Laws Ch. 62
- Arranged and published as a statute by the Revisor of Statutes
  - K.S.A. 2-3901, K.S.A. 2-3902, K.S.A. 2-3903
What’s in the Law

• Section 1 — Definitions
• Section 2 — The Meat of It All
  – The Department, alone or in coordination with a state educational institution, may cultivate industrial hemp grown from certified seed and promote the research and development of industrial hemp.
  – The Secretary will create an advisory board to review and recommend applications for pilot projects and research proposals.
  – The Department will oversee and license all individuals participating in the cultivation, growth, research, oversight, study, analysis, transportation, processing or distribution of certified seed or industrial hemp.
What’s in the Law

• Section 2 — The Meat of It All (continued)
  – The Department will require anyone seeking a license
    ▪ To be fingerprinted
    ▪ To submit to state and national criminal history record check
  – The Secretary will develop rules and regulations to carry out the provisions of the Alternative Crop Research Act.
  – The Department will submit a report to the legislature outlining the steps and timeline to implement a process that would allow individuals and businesses to grow and process industrial hemp in Kansas and to sell it in other states. (Submitted Jan. 2019)
  – Nothing in the Alternative Crop Research Act will allow anyone to violate any state or federal law.
What’s in the Law

- Section 3 — Administrative
  - The state treasury has created the Alternative Crop Research Act Licensing Fee Fund to be administered by the Secretary.
    - Only the Secretary of Agriculture can spend money from the Alternative Crop Research Act Licensing Fee Fund.
    - The fees collected under the Alternative Crop Research Act will be deposited in the Alternative Crop Research Act Licensing Fee Fund.
Research as Outlined by K.S.A. 2-3901, K.S.A. 2-3902, K.S.A. 2-3903

• Oversight and analysis of industrial hemp (IH) research and analysis of soils, growing conditions and harvest methods for the production of varieties of IH suitable for commercial hemp products.

• Analysis on the economic feasibility of developing an IH market in various types of IH that can be grown in Kansas.

• Analysis on the value-added benefits, including environmental, that the state would reap by having Kansas-grown IH varieties.

• A study on the worldwide agronomy research relating to IH varieties, production and utilization.

• A study on the feasibility of attracting funding for IH research.

• Pilot programs for economic development, research, cultivation, market analysis, manufacturing and transportation of IH and IH products.
Developing Regulations

Statute authorizes the promulgation of rules and regulations

Discuss statute and the need for regulations with stakeholders

KDA develops initial draft of regulations

KDA reviews suggested revisions and edits regulations

Stakeholders review draft regulations and suggest revisions

Repeat as necessary

Develop final version acceptable to all stakeholders

Follow Regulatory Process

Regulations adopted and enforced

Review and revise as necessary
Kansas Regulatory Process

1. Submit regulations to Division of Budget for review of Economic Impact Statement and Regulations
   - Oct. 17, 2018

2. Submit regulations to Department of Administration
   - Oct. 17, 2018

3. Submit regulations, Economic Impact Statement to the Attorney General
   - Oct. 24, 2018

4. Submit the hearing notice packet to the Secretary of State
   - Nov. 8, 2018

5. 61 days, minimum
   - Legislative Joint Committee on Administrative Rules and Regulations reviews and comments on proposed regulations
     - Dec. 10, 2018

6. Notice of public hearing published in the Kansas Register
   - Nov. 8, 2018

7. Hold the public hearing
   - Jan. 9, 2019

8. Obtain approval for any revisions; adopt; file with the Secretary of State
   - Jan. 18, 2019

9. Regulations published in the Kansas Register
   - Jan. 24, 2019

10. Regulations take effect
    - Feb. 8, 2019
Activities Conducted by Licensees

- Grower: Cultivate, Plant, Grow, Harvest
- Distributor: Transport, Condition, Distribute
- Processor: Handle, Store, Process

Kansas Department of Agriculture
Relationships Between Licensees

- Distributor
- Processor
- Grower
- Legally Imported Source of Hemp

Distributor → Processor
Distributor → Grower
Processor → Distributor
Grower → Processor
Grower → Distributor
Distributor ← Grower
Distributor ← Processor
Regulations

- As determined by the Secretary with input from stakeholders including a working group committee — May 11 public meeting, 5 working group meetings, an informal public comment period and public hearing.
  - License Approval Process
  - State Advisory Board
  - Requirements for Licensees
    - Grower, Distributor, Processor, Administrative License, State Education Institutions
  - Fee Schedule
  - Pre-and Post-Harvest Inspection, Sample Collection, Testing and Post-Testing Actions
  - Reports
Research License Application Approval Process

• Submit completed research license application, including research proposal
  – All individuals participating
  – Maps identifying location
  – Acknowledgments of restrictions
  – SARE Technical Bulletin, How to Conduct Research on Your Farm

• Submit to and pass the state and national criminal history record check

• Submit application fees

• Research license applications are reviewed by State Advisory Board and Secretary and are either denied or conditionally approved
Research License Application

Approval Process

• If conditionally approved, applicant has 15 days to remit applicable license fees.

• Once license fees are received, the research license application shall be officially approved and the Department shall issue the appropriate licenses.

• Copies of each license issued will be forwarded to appropriate law enforcement agencies.

• Application are required to be submitted on an annual basis.
  - For the 2019 growing season, the deadline is March 1
  - For other growing seasons, the deadline is November 30
Information can be found at www.SARE.org
State Advisory Board

- Members appointed by the Secretary of Agriculture
- Consists of no fewer than five and no more than nine members
- Reflects different geographic areas of the state equally, to the greatest extent possible
- Each member shall be recognized for knowledge and leadership in at least one of the following: crop research, industrial hemp production/processing, law enforcement, seed certification, or any other sector deemed important by the Secretary
- Each member is issued an administrative license
State Advisory Board

• Terms:
  – Secretary will designate four members whose terms expire June 30, 2021, and the remaining on June 30, 2023.
  – Limited to serving two terms.

• State board will advise the Secretary regarding pilot projects and research proposals.

• Other duties may include review of rules and regulations and recommended changes.
State Educational Institution

• State educational institution research license required for those volunteers, students or employees wishing to conduct industrial hemp research.

• Each individual with access to any research area must be listed on the research license application and pass the state and national criminal history record check.

• Applications, including research proposals, are reviewed solely by the Secretary.

• No fees imposed.

• Cannot subcontract with an individual for land use.
Administrative License

• Will be issued to
  – Employees of the designated certifying agency
  – KDA employees
  – Members of the State Advisory Board
• No application or license fees required
• Prior to licenses being issued, each individual shall undergo and pass the state and national criminal history record check.

</table>
Pre-Harvest Inspection, Sample Collection, Testing, and Post-Testing Actions

• Licensee shall notify the department of harvest dates in pre-harvest report 30 days before harvesting.

• Department shall collect a sample of industrial hemp and initial testing requires no payment or additional fees.
  – Licensees can request separate samples be taken but requires additional sampling and testing fees.

• Sample tested to determine delta-9-tetrahydro cannabinol concentration (THC).
  – Must be 0.3% or less to warrant a passing report of analysis.
  – If higher than 0.3%, it warrants a failing report or analysis and testing results and location may be reported to KBI. If higher than 2.0%, testing results and location shall be reported to KBI.
Pre-Harvest Inspection, Sample Collection, Testing, and Post-Testing Actions

• Licensees shall receive a passing report analysis prior to harvesting and has 10 days to fully harvest industrial hemp after issuance of passing report of analysis.

• If licensee receives a failing report of analysis:
  – Licensee may request a subsequent pre-harvest sample and pay sampling and testing fees or licensee shall destroy all industrial hemp within seven days.
Post-Harvest Inspection, Sample Collection, Testing, and Post-Testing Actions

• The department may conduct inspections any time after harvest.
• Same requirements and pre-harvest inspection.
• If a sample is collected, the licensee must be issued a passing report of analysis to handle, condition, distribute, transport or process the sampled industrial hemp plants, plant parts, grain or seeds.
Harvest Certificate

• No more than five days after the licensee completes harvest of industrial hemp, the licensee shall notify the department that harvest has been completed.

• The department shall not issue a harvest certificate until the following information is provided:
  – The **official name of the industrial hemp variety** that was cultivated, planted or grown.
  – **Each date the licensee harvested** the industrial hemp plants, plant parts, grain or seeds.
Harvest Certificate

- The **global positioning system coordinates** for each **research area** where the industrial hemp was harvested.
- A statement of **intended end-use** for all industrial hemp harvested.

• After harvest, a copy of the harvest certificate shall accompany the industrial hemp plants, plant parts, grain or seeds.
Reports

• **Research License Application** – Applicants
  – For the 2019 growing season, the deadline is March 1.
  – For other growing seasons, the deadline is November 30.

• **Field Planting Report** – Licensed research growers within 15 days after every planting.

• **Voluntary Withdrawal Report** – Licensed research growers
  – On or before June 1 if no industrial hemp was planted or
  – Within 15 days if a licensee conducts a voluntary destruction.
Reports Continued

• **Pre-Harvest Report** – Licensed research growers at least 30 days prior to intended harvest dates

• **Production Report** – Licensed research growers within 30 days after last harvest date for every harvest

• **Distribution Report** – Licensed research distributors by November 30

• **Processing Report** – Licensed research processors by November 30

• **Research Report** – All licensees by November 30
Information to Gather Now
If Planning to Participate

• Names of all individuals involved with the growing, distributing or processing of industrial hemp.
• GPS coordinates of fields and buildings associated with specific license type.
• Know the intended end-use of product.
• Pencil out research proposal.

Research Proposal Instructions:

- Complete the following sections, either by utilizing the fillable form or by providing your answers on a separate page(s). Handwritten submissions are strongly discouraged.
- If answering on a separate document, please label each section (A-F).
- Be concise: Your research proposal should be as concise as possible; not to exceed 2 pages total.
- For more information on how to write a research proposal, please see the Technical Bulletin on How to Conduct Research on Your Farm or Ranch by visiting https://www.sare.org/Learning-Center/Bulletins/How-to-Conduct-Research-on-Your-Farm-or-Ranch.

SECTION A: Identify your research question and objective, including a statement of the type of research to be conducted and its purpose.

SECTION B: Identify your experimental design.
SECTION C: Explain what will be measured and what data will be collected.

SECTION D: Explain how the project will be implemented, including location and size of your anticipated research areas (in acres or square feet), duration of your research operations, and variety of industrial hemp that will be used in your research.
### SECTION E: Explain how research data will be collected, recorded and analyzed.

<p>| |</p>
<table>
<thead>
<tr>
<th></th>
</tr>

Growing Season 2019

• Growing season 2019 stands with rules and regulations as presented.
• KDA cannot make rules and regulations that are not aligned with state statute.
• KSA 2-3902 (c) and (d) requires:

(c) The department shall oversee and annually license all individuals participating in the cultivation, growth, research, oversight, study, analysis, transportation, processing or distribution of certified seed or industrial hemp pursuant to this act. The department shall establish fees for licenses, license renewals and other necessary expenses to defray the cost of implementing and operating the alternative crop research act in this state on an ongoing basis.
(d) (1) The department shall require, as a qualification for initial or continuing licensure, all individuals seeking a license or license renewal under this act to be fingerprinted and to submit to a state and national criminal history record check. The fingerprints shall be used to identify the individual and to determine whether the individual has a record of criminal history in this state or any other jurisdiction. The department is authorized to submit the fingerprints to the Kansas bureau of investigation and the federal bureau of investigation for a state and national criminal history record check. The department may use the information obtained from fingerprinting and the criminal history record check for purposes of verifying the identification of the individual and for making an official determination of the qualifications for initial or continuing licensure pursuant to this act and rules and regulations promulgated pursuant to this act. Disclosure or use of any information received by the department for any purpose other than the purpose provided for in this section shall be a class A misdemeanor and shall constitute grounds for removal from office or termination of employment.
2019 Application

Industrial Hemp Research Program

As of Feb. 8, 2019, the permanent administrative regulations for the Industrial Hemp Research Program in Kansas are now effective. Applications for a license to participate in the Industrial Hemp Research Program as a grower, processor or distributor are now available here on this website.

Research license APPLICATIONS and relevant information and guidelines

APPLICATIONS

NEW

Applications are now available to participate in the Industrial Hemp Research Program. Applications are due by Friday, March 1.

Find the research license applications and all relevant information and instructions here.
Applications for Industrial Hemp Research Program

The Kansas Department of Agriculture is implementing the Industrial Hemp Research Program as authorized by the Alternative Crop Research Act (K.S.A. 2-3901 et seq.).

To be considered for a research license for the 2019 growing season, you must submit your research license application, including your research proposal, all required attachments, including fingerprint cards and waiver forms, and applicable fees by the Friday, March 1 deadline. Submit all materials in one mailing to KDA, Attn: Industrial Hemp Research Program, 1320 Research Park Drive, Manhattan, KS 66502, postmarked by March 1, 2019.

APPLICATIONS

There are FOUR DIFFERENT APPLICATIONS, one for each different license type. Which application should you use?

- **Grower License Application** — Growers may cultivate, plant, grow, handle, harvest, store, condition, distribute or transport their own industrial hemp
- **Distributor License Application** — Distributors may handle, store, condition, distribute or transport industrial hemp
- **Processor License Application** — Processors may handle, store or process industrial hemp
- **State Educational Institution License** — University applicants may cultivate, plant, grow, handle, harvest, store, condition, distribute, transport or process industrial hemp

2019 Application

APPLICATION REVIEW PROCESS

1. Complete application arrives at KDA (including the application, research proposal, fingerprint cards, waivers, and applicable fees).
2. Fingerprint cards and waivers will be sent immediately to the Kansas Bureau of Investigation to begin the state and national criminal history check. The background check is expected to take 7-10 business days.
3. Complete applications will be reviewed by administrative staff at KDA to ensure they meet all program requirements.
4. When the results have been received from the KBI, complete applications will be reviewed by the Industrial Hemp Advisory Board and a recommendation will be made to the Secretary of Agriculture, who will then either approve or deny the application for licensure.
5. If the Secretary approves the application, you will be notified that you have been conditionally approved and you will be required to send in the applicable license fee.
6. Your license fee is due within 15 days of being notified of your conditional approval. If you do not pay the license fee within 15 days, your conditional approval shall be terminated, and your requested licenses shall not be issued. Full List of Program Fees
7. Once your license fee is received, your license will be issued.
8. See this table of Industrial Hemp Important Deadlines for additional dates which will apply to licensed participants of the Industrial Hemp Research Program

* Watch your email! The primary method of communication throughout this process will be via email.
Kansas Industrial Hemp Research Program

Request for Permission

Application Type: [ ] Grower  [ ] Distributor  [ ] Processor  [ ] State Educational Institution

Intended End Use:  [ ] Seed / Grain  [ ] Floral Material  [ ] Fiber

As an applicant to be a Primary Licensee in the Kansas Industrial Hemp Research Program, I would like to request permission to: *(only one request per form)*

[ ] Cultivate, plant, grow, handle, harvest, condition, store, distribute or process industrial hemp plants, plant parts, grain or seeds in or within 50 feet of a residential structure.

[ ] Cultivate, plant, grow, handle, harvest, condition, store, distribute or process industrial hemp plants, plant parts, grain or seeds within one-quarter mile of any public or private K-12 school or public recreational area.

[ ] Voluntarily withdraw from the industrial hemp research program after providing the department less than 30 days’ notice of my intended withdrawal date.

[ ] Cultivate, plant, grow, harvest or condition more than one approved variety of industrial hemp in a research area.

As an applicant under a state educational institution research license, I would like to request permission to:

[ ] Store or distribute industrial hemp plants, plant parts, grain or seeds cultivated or grown under the license of another licensee.

Provide justification for the request selected above. Attach additional pages if necessary. The Secretary of Agriculture may deny your request for a lack of justification or for any other reason.
Kansas Industrial Hemp Research Program

Request for Permission to Use Unapproved Industrial Hemp Variety

Individuals applying to be a primary licensee in the Kansas Department of Agriculture’s (KDA) Industrial Hemp Research Program must obtain written permission from the Kansas Secretary of Agriculture before using a variety of industrial hemp that is not currently on KDA’s Approved Varieties list in their research project. Fill out and sign this form as indicated below to request permission to use an unapproved variety of industrial hemp.

This form must be attached to the Kansas Industrial Hemp Research Program application which states the intended use of the unapproved variety of industrial hemp proposed to be used. Request for Permission to Use Unapproved Industrial Hemp Variety forms that are not attached to an application or not attached to the proper application may not be considered for permission, and Kansas Industrial Hemp Research Program applications that state the intended use of an unapproved variety without an attached Request for Permission to Use Unapproved Industrial Hemp Variety form listing the stated variety may not be considered for approval.

Application Type:  [ ] Grower  [ ] Distributor  [ ] Processor  [ ] State Educational Institution

Variety: ____________________________

NOTE: List only one variety per form.

Intended End Use:  [ ] Seed / Grain  [ ] Floral Material  [ ] Fiber
2019 Application

☐ This variety of industrial hemp has been successfully shown to produce the above indicated end-use industrial hemp product that contains a delta-9 tetrahydrocannabinol concentration of no more than 0.3% on a dry weight basis. I have attached supporting documentation that illustrates:

☐ The plant was tested for delta-9 tetrahydrocannabinol concentration on a dry-weight basis
☐ Proof of certification to AOSCA standards
☐ The certification of the testing lab
☐ The part of the plant that was tested
☐ The results of the test

☐ This variety of industrial hemp has not been successfully shown to produce the above indicated end-use industrial hemp product that contains a delta-9 tetrahydrocannabinol concentration of no more than 0.3% on a dry weight basis.
Potential Business Opportunities
Distributor

- Distribute, transport, condition, handle, store, sell seed
Types of Processors

- **Fiber processor**
  - Biomass
  - Building materials, fabrics, animal bedding, injected molds, plastics
Types of Processors

• Grain processor
  – Hemp seed oil, hulled seed, hemp protein, hemp fiber
Types of Processors

- Floral processor
  - Cannabidiol (CBD) products
