

2022 Management Plan

For Logan

County

Denny Mackley

, County Weed Director

Specify the goals and priorities of the program for the coming year.

Starting in April spray all county row's at least once if not twice for broad leaf and noxious weed control trough out the year. State highways as per contract. Private land if noxious weeds are not controlled the land owner will be contacted requesting control of the noxious weeds. follow up will be conducted in 15 to 20 days, at that time a legal notice will be sent if no treatment has been started.

Specify the goals and priorities of the program for the next five years.

Try and stay on top of the noxious weeds in Logan County by following the goals above.

Describe the areas which noxious weed species are known to occur within the county and specific locations of new infestations and areas particularly susceptible to new infestations.

Field bindweed	Just about everywhere in the county
Musk thistle	Mostly located on the east end of the county
Sericea lespedeza	none
Johnsongrass	Only one small spot in the middle of the county
Bur ragweed	mostly in lagoon areas of some farm ground
Canada thistle	finding some along railroad row in western part of the county
Hoary cress	none
Leafy spurge	none
Quackgrass	none
Kudzu	none
Russian knapweed	none

List any non-noxious invasive weed species you plan to control and the types of integrated weed control methods you plan on using on them.

None at this time

List your planned integrated weed management goals and procedures, including but not limited to biological control agent selection and distribution, pesticide selection and application and cultural and mechanical controls.

Biological Controls

none

Chemical Controls

Bindweed 2-4-D/Tordon(1qt. 1qt.) 2-4-D/Panoramic(24oz. 7oz.) Musk Thistle 2-4-D/Tordon(20oz. 20oz..2ally) Canada Thistle 2-4-D/Tordon(20oz. 20oz. .2 ally)

Cultural Controls

None

Mechanical Controls

none

Estimate the projected personnel, operations, and equipment costs of the proposed program.

Personnel costs	\$30,000
Operations costs	
Equipment costs	\$27,000

List the methods you plan to use to encourage compliance and the enforcement actions you will take if necessary.

In Logan County I'm pretty fortunate that all it takes is a phone call. A notice is published in the local news paper as 1st notice, if no action taken a legal notice will be mailed to the land owner. Follow up will be conducted in 15 to 20 days if no action has been taken Logan County will start treatment.

List your plans for working with state and/or federal agencies to control the noxious weeds on state and/or federal lands.

Every year Logan County has a signed contract with KDOT to treat noxious weeds on their properties.

Describe your education and outreach plans for the coming year. Include training and professional development for yourself and your staff. (Attend District meetings? Annual Conference? Recertification?)

Myself and my applicator attend most district meetings, and attend the CWDAK annual conference to learn about new chemicals, attend for recertification, training, new ideas.

List the facilities and equipment available for use in managing the noxious weeds in your county, including a list of the equipment available for rent to the public and the rent you charge.

2 - 1 ton spray trucks for road side spraying
 2 - 4 wheelers with sprayers
 1 - side by side with sprayer

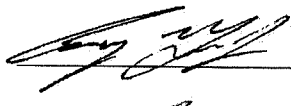

Logan County does not rent equipment

Noxious Weed Department Employees

Name	Title	Years of service in the Nx Wd Dept.	# Jobs within the county
Denny Mackley	Director	23	3
Dayna Mackley	Applicator	15	2

I certify that this is the official Annual Management Plan of Logan County
