

2022 Management Plan

For Woodson County
Rick "Jarrod" McVey, Woodson County Weed Director

Specify the goals and priorities of the program for the coming year.

In the next year I will continue to combat/control all noxious weeds on the county right of ways.

Along with continuing to educate producers and land owners of Woodson County on identifying and treating Noxious and Invasive weeds on their land.

Priorities would be sending out more enforcement letters to landowners.
 Also to help landowners to use more Integrated Pest Management(IPM) practices.

Specify the goals and priorities of the program for the next five years.

Goals would be to see a continue decrease of Sericea lespedeza on private lands by encouragement and enforcement.

Provide rental equipment for tax payers.

Hire a seasonal sprayer to run a second truck.

Describe the areas which noxious weed species are known to occur within the county and specific locations of new infestations and areas particularly susceptible to new infestations.

Field bindweed	Right-of-Way, crop ground, pasture. The edge of roads are must susceptible to
Musk thistle	NA spreading due to Motor Graders dragging the roads.
Sericea lespedeza	EVERYWHERE it doesn't discriminate land type or enviroment.
Johnsongrass	Right-of-Ways, Pasture, Crop Land.
Bur ragweed	NA
Canada thistle	NA
Hoary cress	NA
Leafy spurge	NA
Quackgrass	NA
Kudzu	NA
Russian knapweed	NA

List any non-noxious invasive weed species you plan to control and the types of integrated weed control methods you plan on using on them.

Chemical Control

Chemical Weed Control for Field Crops, Pastures, Rangeland, and Noncropland " .

Any two or more of the herbicides listed below may be available for cost-share as a pre-mix or a tank mix if allowed on the respective labels. Contact your county weed program for availability.

Herbicide	Mode of Action
Aminopyralid	4
Imazapic	2
Glyphosate	9
Triclopyr	4
2,4-D Amine	4

List your planned integrated weed management goals and procedures, including but not limited to biological control agent selection and distribution, pesticide selection and application and cultural and mechanical controls.

Biological Controls

NA

Chemical Controls

This year I plan to use more tank mixes with different MOA's than in years past.

Cultural Controls

NA

Mechanical Controls

I plan to spray Sericea Lespedeza early in the spring and then go back in the fall and burn patches in the right-of-way that came back from the seed bank.

Estimate the projected personnel, operations, and equipment costs of the proposed program.

Personnel costs	
Operations costs	
Equipment costs	

List the methods you plan to use to encourage compliance and the enforcement actions you will take if necessary.

First step I take for enforcement is to put a General notice in the county paper in March yearly.

Second step I take is to try to contact landowner by phone/email or in-person to visit about there problem and encouge them to treat it.

Third step send an offical notice.

Forth step send legal notice.

Lastly go out and treat the area not in compliance and bill the landower our cost +10%

List your plans for working with state and/or federal agencies to control the noxious weeds on state and/or federal lands.

I have a good working relationship with my local KDOT and Wildlife and Parks. We work together to identify and treat noxious and invasive species on state/federal land in Woodson County.

I also work closely with both Allen, Greenwood and Wilson County FSA offices.

Along with all our local watershed districts.

Describe your education and outreach plans for the coming year. Include training and professional development for yourself and your staff. (Attend District meetings? Annual Conference? Recertification?)

I plan to continue to attend District and State meetings along with Annual Conference.

I will continue to get my recertification hours for my 6a and 9a.

I plan to continue to work my local K-state extension agent to help educate the producers and landowners of Woodson County.

List the facilities and equipment available for use in managing the noxious weeds in your county, including a list of the equipment available for rent to the public and the rent you charge.

40x60 Noxious Weed Shop and Office

2005 Chevy 1-ton with 400 gallon tank and sprayer

2019 Dodge Ram pickup

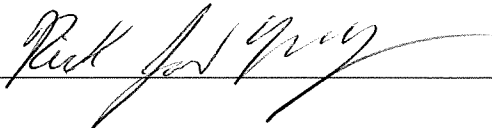

2004 John Deere Gator ATV with 60 gallon tank and sprayer.

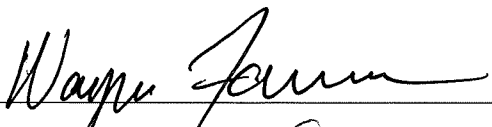

1998 Toyota forklift

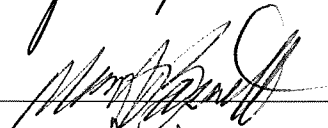

Noxious Weed Department Employees

Name	Title	Years of service in the Nx Wd Dept.	# Jobs within the county
