Before promulgating the determination that a quarantine is necessary, the secretary, after providing due notice to interested parties, shall hold a public hearing at which any interested party may appear and be heard either in person or by attorney. The secretary may impose a temporary quarantine for a period not to exceed 90 days during which time a public hearing, as provided in this section, shall be held if it appears that a quarantine for more than the 90-day period will be necessary to prevent, contain or retard the spread of the plant pest. The secretary
may refuse to perform any inspection if the regulated article to be inspected is found to be in such condition that it cannot be adequately inspected or the environs in which the regulated article is located present a danger to the health and safety of the inspection personnel.

2-2135. Pest control compact, enactment. The pest control compact is hereby enacted into law and entered into with all other jurisdictions legally joining therein in the form substantially as follows:

PEST CONTROL COMPACT

Article I.
Findings

The party states find that:
   (a) In the absence of the higher degree of cooperation among them possible under this compact, the annual loss of approximately 137 billion dollars from the depredations of pests is virtually certain to continue, if not to increase.
   (b) Because of the varying climatic, geographic and economic factors, each state may be affected differently by particular species of pests; but all states share the inability to protect themselves fully against those pests which present serious dangers to them.
   (c) The migratory character of pest infestations makes it necessary for states both adjacent to and distant from one another, to complement each other’s activities when faced with conditions of infestation and reinestation.
   (d) While every state is seriously affected by a substantial number of pests, and every state is susceptible to infestation by many species of pests not now causing damage to its crop and plant life and products, the fact that relatively few species of pests present equal danger to or are of interest to all states makes the establishment and operation of an insurance fund, from which individual states may obtain financial support for pest control programs of benefit to them in other states and to which they may contribute in accordance with their relative interest, the most equitable means of financing cooperative pest eradication and control programs.

Article II.

   (b) If the laws of the United States specifically so provide, or if administrative provision is made therefore within the federal government, the United States may be represented on the governing board of the insurance fund by not to exceed three representatives. Any such representative or representatives of the United States shall be appointed and serve in such manner as may be provided by or pursuant to federal law, but no such representative shall have a vote on the governing board or the executive committee thereof.

   (d) At such times as it may be meeting, the governing board shall pass upon applications for assistance from the insurance fund and authorize disbursements therefrom. When the governing board is not in session, the executive committee thereof shall act as agent of the governing board, with full authority to act for it in passing upon such applications.
   (e) The executive committee shall be composed of the chairman of the governing board and four additional members of the governing board chosen by it so that there shall be one member representing each of four geographic groupings of party states. The governing board shall make such geographic groupings. If there is representation of the United States on the governing board, one such representative may meet with the executive committee. The chairman of the governing board shall be chairman of the executive committee. No action of the executive committee shall be binding unless taken at a meeting at which at least four members of such committee are present and vote in favor thereof. Necessary expenses of each of the five members of the executive committee incurred in attending meetings of such committee, when not held at the same time and place as a meeting of the governing board, shall be charges against the insurance fund.

Article VI.
Assistance and Reimbursement

(a) Each party state pledges to each other party state that it will employ its best efforts to eradicate, or control within the strictest practicable limits, any and all pests. It is recognized that performance of this responsibility involves:
   (1) The maintenance of pest control and eradication activities of interstate significance by a party state at a level that would be reasonable for its own protection in the absence of this compact.
   (2) The meeting of emergency outbreaks or infestations of interstate significance to no less an extent than would have been done in the absence of this compact.
   (b) Whenever a party state is threatened by a pest not present within its borders but present within another party state, or whenever a party state is undertaking or engaged in activities for the control or eradication of a pest or pests, and finds that such activities are or would be impracticable or substantially more difficult of success by reason of failure of another party state to cope with infestation or threatened infestation, that state may request the governing board to authorize expenditures from the insurance fund for eradication or control measures to be taken by one or more of such other party states at a level sufficient to prevent, or to reduce to the greatest practicable extent, infestation or reinfestation of the requesting state. Upon such authorization the responding state or states shall take or increase such eradication or control measures as may be warranted. A responding state shall use moneys available from the insurance fund expeditiously and efficiently to assist in affording the protection requested.
   (c) In order to apply for expenditures from the insurance fund, a requesting state shall submit the following in writing:
       (1) A detailed statement of the circumstances which occasion the request for the invoking of the compact.
       (2) Evidence that the pest on account of whose eradication or control assistance is requested constitutes a danger to an agricultural or forest crop, product, tree, shrub, grass or other plant having a substantial value to the requesting state.
       (3) A statement of the extent of the present and projected program of the requesting state and its subdivisions, including full information as to the legal authority for the conduct of such program or programs and the expenditures being made or budgeted therefore, in connection with the eradication, control or prevention of introduction of the pest concerned.
       (4) Proof that the expenditures being made or budgeted as detailed in item 3 do not constitute a reduction of the effort for the control or eradication of the pest concerned or, if there is a reduction, the reasons why the level of program detailed in item 3 constitutes a normal level of pest control activity.
       (5) A declaration as to whether, to the best of its knowledge and belief, the conditions which in its view occasion the invoking of the compact in the particular instance can be abated by a program undertaken with the aid of moneys from the insurance fund in one year or less or whether the request is for an installment in a program which is likely to continue for a longer period of time.
       (6) Such other information as the governing board may require consistent with the provisions of this compact.
   (d) The governing board or executive committee shall give due notice of any meeting at which an application for assistance from the insurance fund is to be considered. Such notice shall be given to the compact administrator of each party state and to such other officers and agencies as may be designated by the laws of the party states. The requesting state and any other party state shall be entitled to be represented and present evidence and argument at such meeting.
   (e) Upon the submission as required by paragraph (c) of this Article and such other information as it may have or acquire, and upon determining that an expenditure of funds is within the purposes of this compact and justified thereby, the governing board or executive committee shall authorize support of the program. The governing board or executive committee may meet at any time or place for the purpose of receiving and considering an application. Any and all determinations of the governing board or executive committee, with respect to an application, together with the reasons therefore shall be recorded and subscribed in such manner as to show and preserve the votes of the individual members thereof.
(f) A requesting state which is dissatisfied with a determination of the executive committee shall upon notice in writing given within twenty days of the determination with which it is dissatisfied, be entitled to receive a review thereof at the next meeting of the governing board. Determinations of the executive committee shall be reviewable only by the governing board at one of its regular meetings, or at a special meeting held in such manner as the governing board may authorize.

(g) Responding states required to undertake or increase measures pursuant to this compact may receive moneys from the insurance fund, either at the time or times when such state incurs expenditures on account of such measures, or as reimbursement for expenses incurred and chargeable to the insurance fund. The governing board shall adopt and, from time to time, may amend or revise procedures for submission of claims upon it and for payment thereof.

(h) Before authorizing the expenditure of moneys from the insurance fund pursuant to an application of a requesting state, the insurance fund shall ascertain the extent and nature of any timely assistance or participation which may be available from the federal government and shall request the appropriate agency or agencies of the federal government for such assistance and participation.

(i) The insurance fund may negotiate and execute a memorandum of understanding or other appropriate instrument defining the extent and degree of assistance or participation between and among the insurance fund, cooperating federal agencies, states and any other entities concerned.

Article VII.
Advisory and Technical Committees

The governing board may establish advisory and technical committees composed of state, local, and federal officials and private persons to advise it with respect to any one or more of its functions. Any such advisory or technical committee, or any member or members thereof may meet with and participate in its deliberations upon request of the governing board or executive committee. An advisory or technical committee may furnish information and recommendations with respect to any application for assistance from the insurance fund being considered by such board or committee and the board or committee may receive and consider the same: Provided, That any participant in a meeting of the governing board or executive committee held pursuant to Article VI(d) of the compact shall be entitled to know the substance of any such information and recommendations, at the time of the meeting if made prior thereto or as a part thereof or, if made thereafter, no later than the time at which the governing board or executive committee makes its disposition of the application.

Article VIII.
Relations with Nonparty Jurisdictions

(a) A party state may make application for assistance from the insurance fund in respect of a pest in a nonparty state. Such application shall be considered and disposed of by the governing board or executive committee in the same manner as an application with respect to a pest within a party state, except as provided in this Article.

(b) At or in connection with any meeting of the governing board or executive committee held pursuant to Article VI(d) of this compact a nonparty state shall be entitled to appear, participate and receive information only to such extent as the governing board or executive committee may provide. A nonparty state shall not be entitled to review of any determination made by the executive committee.

(c) The governing board or executive committee shall authorize expenditures from the insurance fund to be made in a nonparty state only after determining that the conditions in such state and the value of such expenditures to the party states as a whole justify them. The governing board or executive committee may set any conditions which it deems appropriate with respect to the expenditure of moneys from the insurance fund in a nonparty state and may enter into such agreement or agreements with nonparty states and other jurisdictions or entities as it may deem necessary or appropriate to protect the interests of the insurance fund with respect to expenditures and activities outside of party states.

Article IX.
Finance

(a) The insurance fund shall submit to the executive head or designated officer or officers of each party state a budget for the insurance fund for such period as may be required by the laws of that party state for presentation to the legislature thereof.

(b) Each of the budgets shall contain specific recommendations of the amount or amounts to be appropriated by each of the party states. The requests for appropriations shall be apportioned among the party states as follows: one-tenth of the total budget in equal shares and the remainder in proportion to the value of agricultural and forest crops and products, excluding animals and animal products, produced in each party state. In determining the value of such crops and products the insurance fund may employ such source or sources of information as in its judgment present the most equitable and accurate comparisons among the party states. Each of the budgets and requests for appropriations shall indicate the source or sources used in obtaining information concerning value of products.

(c) The financial assets of the insurance fund shall be maintained in two accounts to be designated respectively as the "operating account" and the "claims account". The operating account shall consist only of those assets necessary for the administration of the insurance fund during the next ensuing two-year period. The claims account shall contain all moneys not included in the operating account and shall not exceed the amount reasonably estimated to be sufficient to pay all legitimate claims on the insurance fund for a period of three years. At any time when the claims account has reached its maximum limit or would reach its maximum limit by the addition of moneys requested for appropriation by the party states, the governing board shall reduce its budget requests on a pro rata basis in such manner as to keep the claims account within such maximum limit. Any moneys in the claims account by virtue of conditional donations, grants or gifts shall be included in
calculations made pursuant to this paragraph only to the extent that such moneys are available to meet demands arising out of claims.

(d) The insurance fund shall not pledge the credit of any party state. The insurance fund may meet any of its obligations in whole or in part with moneys available to it under Article IV(g) of this compact, provided that the governing board takes specific action setting aside such moneys prior to incurring any obligation to be met in whole or in part in such manner. Except where the insurance fund makes use of moneys available to it under Article IV(g) hereof, the insurance fund shall not incur any obligation prior to the allotment of moneys by the party states adequate to meet the same.

(e) The insurance fund shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the insurance fund shall be subject to the audit and accounting procedures established under its bylaws. However, all receipts and disbursements of funds handled by the insurance fund shall be audited yearly by a certified or licensed public accountant and report of the audit shall be included in and become part of the annual report of the insurance fund.

(f) The accounts of the insurance fund shall be open at any reasonable time for inspection by duly authorized officers of the party states and by any persons authorized by the insurance fund.

Article X.
Entry Into Force and Withdrawal

(a) This compact shall enter into force when enacted into law by any five or more states. Thereafter, this compact shall become effective as to any other state upon its enactment thereof.

(b) Any party state may withdraw from this compact by enacting a statute repealing the same, but no such withdrawal shall take effect until two years after the executive head of the withdrawing state has given notice in writing of the withdrawal to the executive heads of all other party states. No withdrawal shall affect any liability already incurred by or chargeable to a party state prior to the time of such withdrawal.

Article XI.
Construction and Severability
This compact shall be liberally construed so as to effectuate the purposes thereof. The provisions of this compact shall be severable and if any phrase, clause, sentence or provision of this compact is declared to be contrary to the constitution of any state or of the United States or the applicability thereof to any government, agency, person or circumstance is held invalid, the validity of the remainder of this compact and the applicability thereof to any government, agency, person or circumstance shall not be affected thereby. If this compact shall be held contrary to the constitution of any state participating therein the compact shall remain in full force and effect as to the remaining party states and in full force and effect as to the state affected as to all severable matters.

Within the meaning of Article VI(b) or VIII(a), a request or application for assistance from the insurance fund may be made by the secretary of agriculture whenever in their judgment the conditions qualifying this state for such assistance exist and it would be in the best interest of this state to make such request.

2-2140. Same; credit of payments received by state. The department, agency or officer expending or becoming liable for an expenditure on account of a control or an eradication program undertaken or intensified pursuant to the compact shall have credited to an operating fund in the state treasury the amount or amounts of any payments made to this state to defray the cost of such program, or any part thereof, or as reimbursement thereof.

2-2141. Same; executive head. As used in the compact, with reference to this state, the term "executive head" shall mean the governor.
