**KS DEPT OF AGRICULTURE**

1. Application is hereby made for approval of the Chief Engineer to change the

- Place of Use
- (Check one or more)  Point of Diversion
- Use Made of Water

File No. 22,334 Circle 27.

2. Name of applicant: City of Hays, Kansas and City of Russell, Kansas (See paragraph 2 of the cover letter.)

Address: c/o Foulston Siefkin LLP, 1551 N. Waterfront Parkway, Suite 100

City, State and Zip: Wichita, Kansas 67206

Phone Number: ( 316 ) 291-9725 E-mail address: dtraster@foulston.com

What is your relationship to the water right;  owner  tenant  agent  other? If other, please explain. Hays and Russell are co-owners of the authorized place of use on the R9 Ranch in Edwards County.

Name of water use correspondent: City of Hays, Kansas

Address: P. O. Box 490, 1507 Main Street

City, State and Zip: Hays, Kansas 67601

Phone Number: ( 785 ) 628-7320 E-mail address: tdougherty@haysusa.com

3. The change(s) proposed herein are desired for the following reasons (please be specific):  
See Paragraph 3 of the cover letter filed concurrently with this application. The cover letter is  
incorporated herein by reference.

The change(s) ~~was~~ (will be) completed by See Paragraph 3 of the cover letter  
(Date)

Proposed Rate \_\_\_\_\_ Proposed Quantity \_\_\_\_\_  
 This point is:  Additional Well  Geo Center List other water rights that will use this point \_\_\_\_\_

- 11. Describe the current condition of and future plans for any point(s) of diversion which will no longer be used. \_\_\_\_\_  
See paragraph 11 of the cover letter.

IF MORE SPACE IS NEEDED, ATTACH ADDITIONAL SHEETS AS NECESSARY

WATER RESOURCES DIVISION

**5. It is proposed that the place of use be changed to:**

The City of Hays, Kansas and its immediate vicinity as well as related areas in the Northeast Quarter (NE/4) of Section 19 and the Northwest Quarter (NW/4) of Section 36, T13S-R18W, Ellis County, Kansas;

The City of Russell, Kansas and its immediate vicinity;

The City of Victoria, Kansas and its immediate vicinity;

The City of La Crosse, Kansas and its immediate vicinity; and

The City of Ellis, Kansas and its immediate vicinity.

Upon the execution of a contract to purchase water from the Project, the authorized place of use should include industrial facilities or the corporate limits of the municipality, rural water district, or other entity entering into such contract for purchase and in the case of a municipality, its immediate vicinity.

**7., 8., 9., and 10. Proposed Rate, Quantity, and Well Location**

The Cities requested a total of 162.88 acre-feet at 890 gpm from the well associated with this water right, all of which would be diverted from new point of diversion "K," as shown on Exhibit K. When combined with existing wells from other water rights, new point of diversion "K" would have a cumulative total of 533.2 acre-feet at 3,380 gpm.

After extensive negotiation, the Cities and the Chief Engineer have reached a tentative agreement on numerous terms that are set out in an Initial Order, including an agreement to reduce the quantity requested to 136.1 acre-feet per year. The Cities understand that the Initial Order is subject to review by the GMD and others and cannot be finalized until after that review. The Cities submit these amendments to their original Change Application but the amendments are contingent upon the entry of an Initial Order and a Final Order with terms that are acceptable to the Cities.

Subject to the negotiated terms set out in the Initial Order, the proposed municipal well "K" will be limited to a maximum rate of 700 gallons per minute.

Attached as Exhibits Q and R are additional maps that show the location of the currently authorized points of diversion, a one-half mile buffer around each irrigation well, the proposed location of municipal well "K," a 1,000-foot radius around that location, and the proposed areal limits within which the new municipal wells can be located.

**13. If changing the place of use and the use made of water, describe how the consumptive use will not be increased:**

*Quantity authorized and perfected*

The Permit, issued on March 19, 1976, granted the right to divert up to 237 acre-feet annually at a rate of up to 1,000 gallons per minute for irrigation use<sup>1</sup> on 132 acres in Section 11-

<sup>1</sup> Permit, HAYS003041, Ex. A.

26S-R20W.<sup>2</sup> The Permit allowed the perfection of 1.80 acre-feet per acre. The Certificate further limited the rate of the wells to 890 gallons per minute when operated simultaneously.<sup>3</sup>

In the cover letter transmitting the Permit, DWR made findings of fact stating that “the proposed use is for a beneficial purpose and is *within reasonable limitations*. If priorities are observed and respected, the proposed use will neither impair any use under existing water rights nor prejudicially and unreasonably affect the public interest.”<sup>4</sup>

The Field Inspection Reports indicate that 226.23 of the 237 acre-feet authorized by the Permit were lawfully perfected.

- 277 acre-feet<sup>5</sup> were applied to 126 approved acres in the NE/4 of Section 11-T26S-R20W.
- The Permit authorized the perfection of 237 acre-feet on 132 acres, or 1.80 acre-feet per acre, but only 126 authorized acres were irrigated during the perfection period, resulting in the perfection of 226.23 acre-feet.<sup>6</sup>

While the Certificate limits the total quantity to 190 acre-feet based on DWR’s after-the-fact determination that 1.5 acre-feet per acre was a reasonable quantity for irrigation use, DWR did not have jurisdiction to make this reduction.<sup>7</sup>

Since the perfection period has expired, the “authorized quantity” for this water right is the 226.23 acre-feet actually perfected even though it exceeds the certified quantity.

Nevertheless, and pursuant to the negotiated terms set out in the Initial Order discussed above, the Cities request that the Chief Engineer approve a total of 136.1 acre-feet per year for municipal use.

Subject to the negotiated terms set out in the Initial Order, the proposed municipal well “K” will be limited to a maximum rate of 700 gallons per minute.

<sup>2</sup> Application, HAYS003031, Ex. B.

<sup>3</sup> Certificate, HAYS003048, Ex. C.

<sup>4</sup> March 19, 1976, letter (emphasis added), HAYS003040, Ex. D.

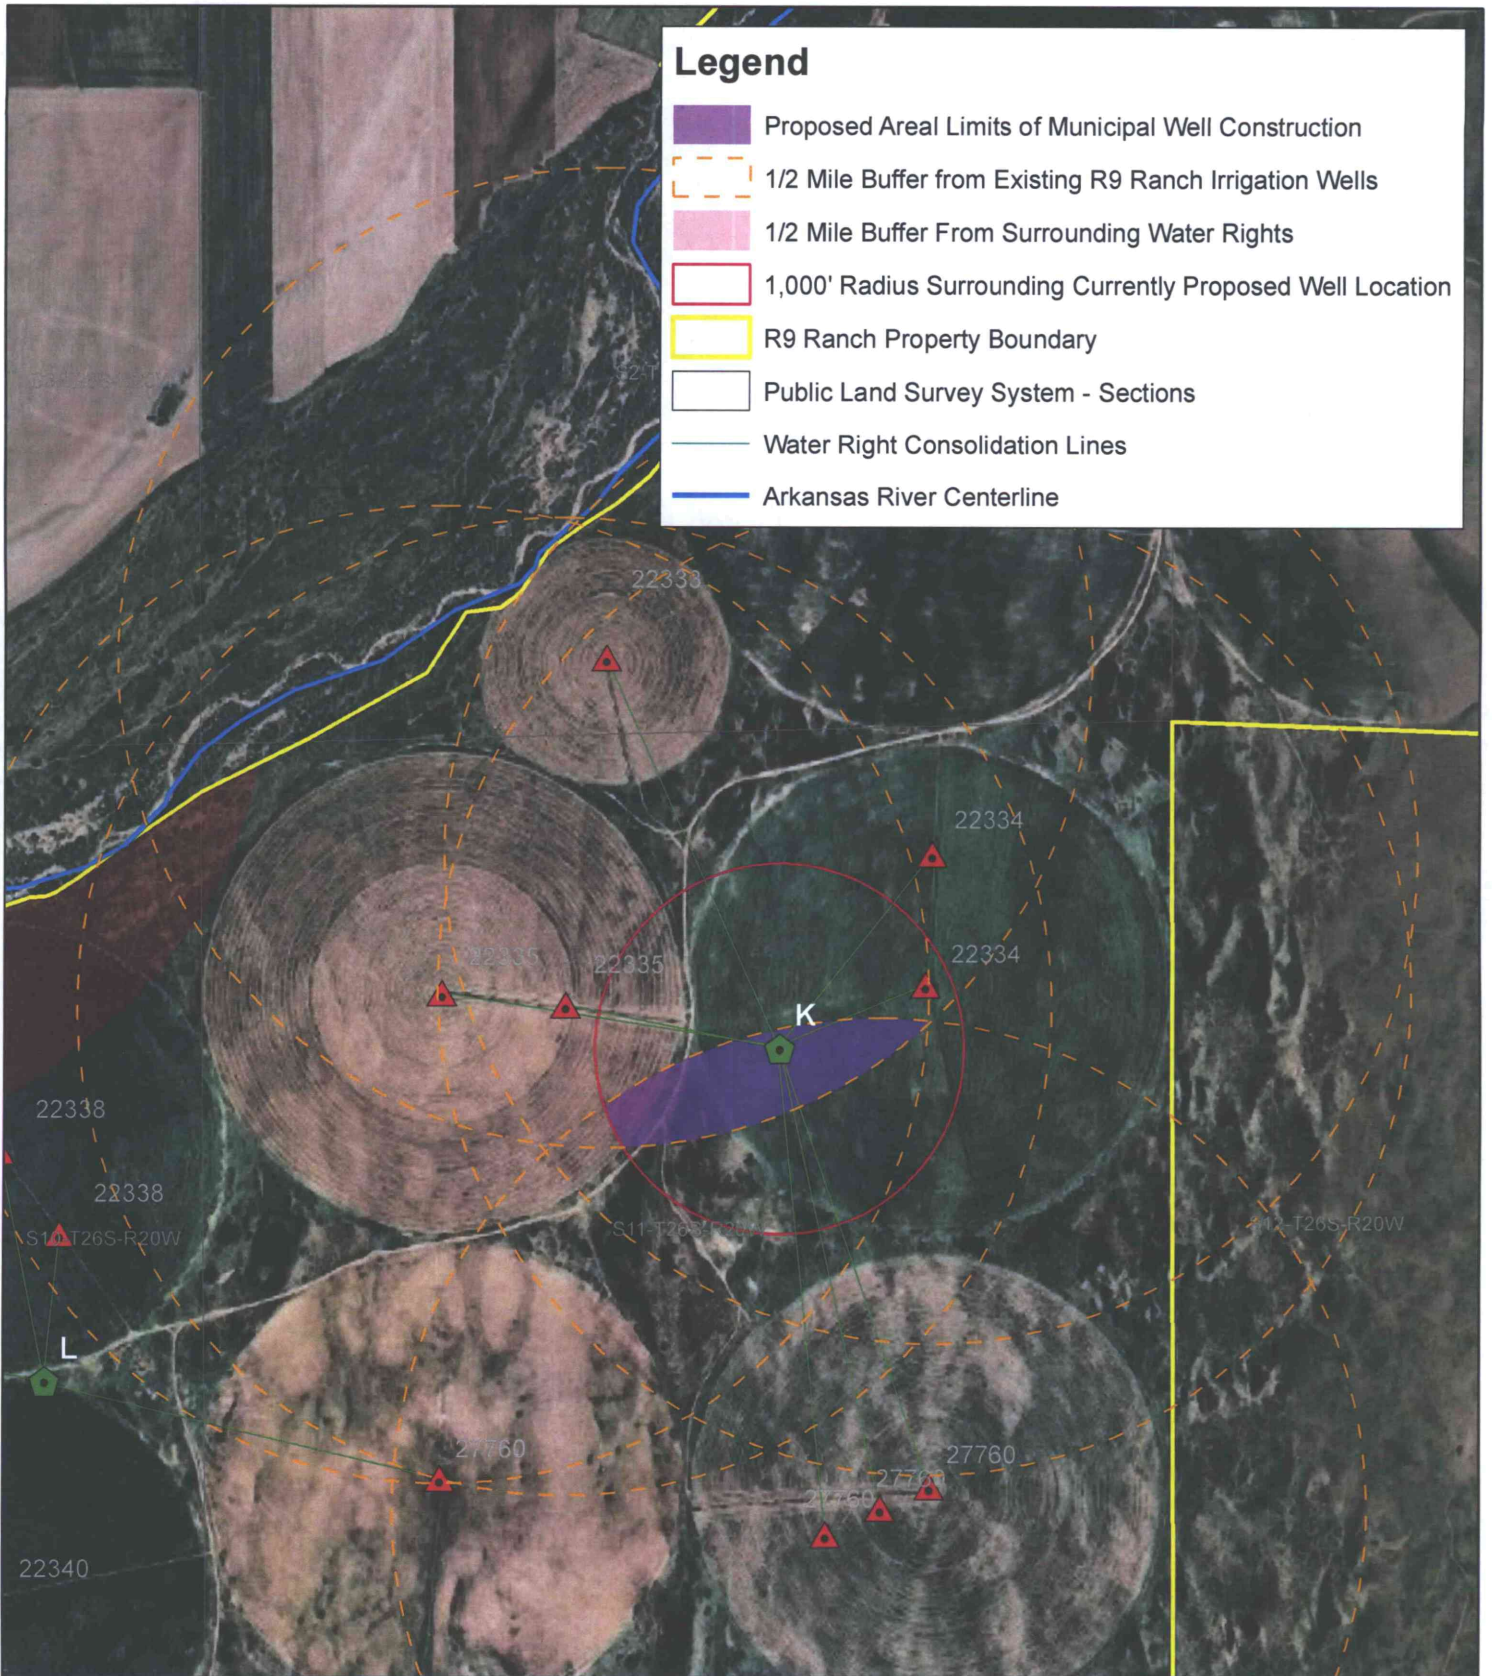

<sup>5</sup> FIR, HAYS002937, Ex. E.

<sup>6</sup> FIRs HAYS003017, Ex. F, and HAYS003021, Ex. G.

<sup>7</sup> Certificate, HAYS003048, Ex. C; Larry Sheets March 19, 1987, Memo, HAYS003044, Ex. H; and *Clawson v. Kansas Dept. of Agriculture, Div. of Water Resources*, 49 Kan. App. 2d 789, 315 P.3d 896 (2013).
