## 2022 Management Plan

For RUSSELL	County
Kent Ellis	, County Weed Director

## Specify the goals and priorities of the program for the coming year.

When we spray the roadsides, the targeted weeds we spray for are Bindweed, Musk Thistle, Hoary Cress and Johnson Grass. We will use 2-4D, Dicamba, Escort XP and Tordon 22K for Bindweed and Musk Thistle.

For the Johnson Grass, we will start spraying in early June using Plateau or Outrider.

Specify the goals and priorities of the program for the next five years.

When we spray the roadsides, the targeted weeds we spray for are Bindweed, Musk Thistle, Hoary Cress and Johnson Grass. We will use 2-4D, Dicamba, Escort XP and Tordon 22K for Bindweed and Musk Thistle.

For the Johnson Grass, we will start spraying in early June using Plateau or Outrider.

Describe the areas which noxious weed species are known to occur within the county and specific locations of new infestations and areas particularly susceptible to new infestations.		
Field bindweed	Throughout the county	
Musk thistle	Mainly in pastures	
Sericea lespedeza	Mainly in CRP	
Johnsongrass	Throughout the county	
Bur ragweed	None known	
Canada thistle	Three areas at Wilson Lake and one area on private land.	
Hoary cress	Primarily in pastures or corrals where there are horses.	
Leafy spurge	None known	
Quackgrass	None known	
Kudzu	None known	
Russian knapweed	None known	

Phragmites on roadsides, we have been spraying with Arsenal. It is mainly in ditches under culverts, where water sits.  List your planned integrated weed management goals and procedures, including but not limited to biological control agent selection and distribution, pesticide selection and application and cultural and mechanical controls.  Biological Controls  None  Chemical Controls  We use 2-4D, Dicamba, Escort XP, Tordon 22K, GrazonNext HL and Milestone. We spray Johnson Grass with Plateau. In early spring, we will spray the Canada Thistie on the State lands at Wilson Lake. We will use Milestone for this.  Cultural Controls  None  Mechanical Controls  We will dig Musk Thistle when neccessary.	List any non-noxious invasive weed species you plan to control and the types of integrated weed control methods you plan on using on them.

Estimate the projected personnel, operations, and equipment costs of the proposed program.		
Personnel costs	\$124,800.00 per year	
Operations costs	\$57,988.68	
Equipment costs	\$21,588.00	

List the methods you plan to use to encourage compliance and the enforcement actions you will take if
necessary.
built call and call the land comen and/an ventante take some of the icomes If they do not then built
I will call and ask the land owner and/or renter to take care of the issues. If they do not, then I will
send them a letter notifying them that they are out of compliance.
List your plans for working with state and/or federal agencies to control the noxious weeds on state and/or
federal lands.
loadia lando.
I have a state contract to take care of all noxious weeds on roadsides. I call them before I go spray
to coordinate with their mowing schedules.

List the facilities and equipment available for use in managing the noxious weeds in your county, including a list of the equipment available for rent to the public and the rent you charge.

We do not have rental equipment for the public.

We have two roadside spray trucks and two pickups with which to spray.

We do go out and spray noxious weeds for some individuals when they hire us to do small areas.
